### 1. SpaceNight

(Instrumental)

### 2. TakeMe2AnotherPlace

(2x's) Take me to another place  
Where we can fly through time and space

Whenever I go out with you  
Surely get me in the mood  
Keep the music playin' through the night  
Whenever I go out with you  
Surely get me in the mood  
Wanna keep the feeling all my life

(2x's) Once I get up I can't get down

Once I get up I can't get down

(2x's) Take me to another place  
Where we can fly through time and space

Smile for me I give you everything  
You're the cutest thing that I have ever seen

(2x's) Take me to another place  
Where we can fly through time and space

Keep the music playin' through the night  
I wanna keep the feeling all my life

### 3. UnexpectedJourney

(Instrumental)

### 4. Flowting

(2x's) Flowting freely  
Timeless in space

Slow motion in space

Flowting freely

Flowting timeless in space, in space

Let your inhibitions go, time to advance

This is what I came to do

Feaking out, body shaking, get up out your stance

This is what I came to do

Let your inhibitions go, time to advance

This is what I came to do

Feaking out, body shaking, get up out your stance

This is what I came to do

Something exquisite like visitin' foreign lands

For more than business, what is this

I dig this son

It's a lot more than abstract, but I went way past that

Oh no just look what that got me to

(2x's) Flowting freely

#### 5. Tera'sSong

(Instrumental)

#### 6. Levitate

(2x's) Levitate with me

Don't hesitate to be

When I go back to the stars

When I go back to where I came from

Deceiving you is feeling hard

You gotta know I'd do it all again, all again

Maybe in my dreams and it feels like I'm drowning

A smile to be seized because it keeps me smiling  
When I look into the sky and I see all the stars above

Levitate, hesitate

(2x's) Levitate with me  
Don't hesitate to be

(2x's) Levitate with me  
Don't hesitate to be

I think it's funny, how no one gets me  
Why do people always ask me how I feel  
When they don't know how they feel themselves  
Why do people contemplate the answers  
When they don't feel all the voice themselves

Levitate, hesitate

(2x's) Levitate with me  
Don't hesitate to be

(2x's) Levitate with me  
Don't hesitate to be

(2x's) Levitate, hesitate

7. Race2Mars

Into the light  
We can fly

We can fly  
Into the light

(2x's) We can fly

(Instrumental)

10. Dilema2- MarsAbandon

(2x's) I can see falling stars under a deep blue sky

(2x's) Explain the unexplained  
I can see falling stars under a deep blue sky  
Explain the unexplained

(2x's) I can see falling stars under a deep blue sky

(2x's) Explain the unexplained  
Explain the unexplained

## 12. Intemporal

(Instrumental)

### Album 2: Wonderland

#### 1. LifeGoesBy

If I could turn back the time  
Then I wouldn't change any rhyme  
'Cause the book of our life is written in stone  
I never regretted all the things that I've done  
Things that I've done

Wonder how the time flies clear  
When I say now it's almost here  
Days go by, years go by, life goes by  
You've got no time to rest

If I could have one wish for free  
Then I wish you're forever with me  
Our future is unpredictable

But our love is unforgettable, you're unforgettable

Wonder how the time flies clear  
When I say now it's almost here  
Days go by, years go by, life goes by  
You've got no time to rest

The past, here and now  
The future is ours  
The times are right to die  
Days go by, years go by, life goes by

Wonder how the time flies clear  
When I say now it's almost here  
Days go by, years go by, life goes by  
You've got no time to rest

The times are right to die  
Days go by, years go by, life goes by  
Life goes by

## 2. Wonderland

Yesterday's life will be never the same  
It always seems that you're losing the game  
You bang the door and you're losing control  
(2x's) You kick the shoes and the bag on the wall

Dry your tears and open your eyes  
(3x's) I know where the Wonderland lies

Fingers crossed I swear, I will never leave you  
Forever I will love you

I know where the wonderland lies

Yesterday's life will be never the same  
You never know if you're losing the game  
I get frightened and nothing's obvious  
(2x's) Nobody cares, but I hear your voice

Dry your tears and open your eyes  
(2x's) I know where the Wonderland lies

(2x's) I will never leave you

(5x's) I know where the Wonderland lies

### 3. Portals

(Instrumental)

### 4. Aftermath

(2x's) This is what we have been waiting for so long  
call it the aftermath

This is what we have been waiting for so long  
call it the aftermath

I was this gone side of morning, left the graves we closed  
now pack and go

This is what we have been waiting for so long  
call it the aftermath

This is what we have been longing for

Let's go out dancing all night long

Now remember getting on

Now let the aftermath, now let it go ooh

This is what we have been waiting for so long  
call it the aftermath, ooh, ooh

(2x's) Can't believe this has finally come true  
Have been dreaming about the end of the earth  
Walking around in the light of the truth  
Let the tide turn over, let it fall

(2x's) This is what we have been waiting for so long  
call it the aftermath

(2x's) This is what we have been waiting for so long  
call it the aftermath, Ooh

## 5. NewLife

Yeah

(2x's) The time has come to say goodbye  
I'm going to leave you far behind

Yeah

I was born to eliminate  
Any of your mistakes  
All the big rocks put in my way  
Didn't cause me to forsake

(2x's) I can't believe that I'm not dreaming  
It's a new beginning  
Starting a brand new life

Yeah

All the plans that I have made  
Finally become real  
So many years without change  
To me it was no big deal

(2x's) I can't believe that I'm not dreaming  
It's a new beginning  
Starting a brand new life

(2x's) I can't believe that I'm not dreaming  
It's a new beginning  
Starting a brand new life

6. OceansAbove

(Instrumental)

7. Secret

(2x's) Nobody knows  
The secret that I keep

(2x's) Nobody knows  
The secret that I keep deep in my soul

Anyone close to me  
What it's all about

Nobody knows  
The secret that I keep

Na na na  
Keep the fire burnin'  
Na na na

(2x's) Keep the wheels on turnin'

(2x's) Ooh, Oh yeah

10. ThinkBack

(2x's) Oh don't you  
Think back sometime

This life is not of my taste  
In my head are fears I chase  
My pain is from outer space  
Ooh, don't you think back sometime

Oh don't you  
Think back sometime

It was you who made me see  
(3x's) You promised you would never leave

(2x's) Oh don't you

Oh don't you  
Think back sometimes, sometimes

### 11. DreamWithin

Ooh

(6x's) Dreaming  
(2x's) Dreaming

"Take this kiss upon the brow  
And in parting from you know  
Thus much let me avow  
You are not wrong who deem  
That my days have been a dream  
Yet if hope has flow away  
In a night or in a day  
In a vision or in none  
Is it therefore the less gone  
All that we see or seem  
Is but a dream within a dream

I stand amid the roar  
Of a surf-tormented shore  
And I hold within my hand  
Grains of the golden sand  
How few yet how they creep  
Through my fingers to the deep  
While I weep, while I weep  
O God can I not grasp  
Them with a tighter clasp  
O God can I not save  
One from the pitiless wave  
Is all that we see or seem  
Is but a dream within a dream”

Ooh

(6x's) Dreaming

(2x's) Dreamin'

(4x's) Dreamin'

“Is all that we see or seem

Is but a dream within a dream”

## Album 3: JourneyHome

### 1. JourneyHome

Driving I've been away so many days  
And I was buried in a place  
Where I don't belong In the distance  
I see the mountains and the trees  
The radio plays the melodies of our favorite songs

Longin' for the blue and open skies  
For the sunrise in your eyes  
By the countryside  
And I'm missing a breath of fresh air  
While the wind plays in your hair  
Amidst the stars at night

Driving I've been away so many days  
And I was buried in a place  
Where I don't belong  
In the distance I see the mountains and the trees  
The radio plays the melodies of our favorite songs

Longin' for the blue and open skies  
For the sunrise in your eyes  
By the countryside  
And I'm missing a breath of fresh air  
While the wind plays in your hair  
Amidst the stars at night

## 2. Fire

The fire behind your eyes  
You can't hide  
I see that you're grievin'  
I'll be the calm you're needin'  
Please reap the love that you and I have sown  
Golden horizons  
See the sun risin'  
But you're still drawing lands(capes)

The fire behind your eyes  
You can't hide  
The fire behind your eyes  
You can't hide  
How you feel inside

I see that you're grievin'  
I'll be the calm you're needin'  
Please reap the love that you and I have sown  
The fire behind your eyes  
You can't hide  
How you feel inside

## 3. SoClear

I see my path so clear  
I don't live my life to please no one  
This is my journey and I'm so strong  
You can try to tear me down  
You won't ever take my crown  
I'm a part of something that's so big  
You can't see it 'cause you are blinded  
By the hate you're storing inside  
Trying to take control of my like

(2x's) So please excuse me  
I don't need that today  
I am on a journey  
To be the best that I can

So move it, move out  
You have no power here  
I'm winning with no doubt  
I see my path so clear  
I see my path so clear

Standin' on my own  
I'm ready to move on  
Don't try to hold me down, no  
I'm fighting on my own  
I'm ready to move on  
Don't try to hold me down

I see my path so clear

I'm ready, I'm ready  
For this rocky journey  
'Cause I know I will make it out  
Don't try to push me down  
You know it's my turn now  
All you can do is frown

(4x's) Please excuse me  
I don't need that today  
I am on a journey  
To be the best that I can

Move out  
You have no power here  
I'm winning with no doubt

(4x's) I see my path so clear

#### 4. BackInTime

Those summer nights  
We were seventeen sharing hopes and dreams  
Those summer nights

We left the world behind  
We were young and wild

Lately I've been thinking  
About the things we used to do  
Sittin' by the riverside  
Singin' songs to the morning light  
I hope you still remember too

Those summer nights  
We were seventeen sharing hopes and dreams  
Those summer nights  
We left the world behind  
We were young and wild

As I'm getting older  
I wish I could go back in time  
The crazy things we used to do  
The memories I share with you  
Stay forever deep inside

As I'm getting older  
I wish I could go back in time  
The crazy things we used to do  
The memories I share with you  
Stay forever deep inside

This winding road  
Up the hill  
Takes me back  
Back home to you

So I pack my bags and leave this crowd city far behind  
I need a place to hide  
I can't wait to be right by your side 'cause that's where I belong  
The place I call my home

I'm on my way  
Home to you

This winding road  
Up the hill

## Album 4: Neverland

(2x's) A brand new life, year...

### 1. NeverlandIntro

(Instrumental)

### 2. Neverland

Let me sleep for one more day  
The night destroys my dreams  
This is why I want to stay  
In Neverland

Walking through the forest at night  
The skies lit by the moon  
Wondering if I'll be alright  
So feeling cold in June  
I spread out my wings and rise  
The uncrowning of the skies  
Easily I break through the clouds  
Now only the sun is above  
Howling wolves sit by the graves  
Give me a glaring eye  
Now they're rulers of my fate  
But there's more that I want to see

I spread out my wings and rise  
The uncrowning of the skies  
Easily I break through the clouds  
Now only the sun is above

Wind whispers into ears  
To remind me of all my fears  
Even now they seem that small  
I've seen them all

Let me sleep for one more day  
The night destroys my dreams

This is why I want to stay In  
Neverland

3. Secret2

You think you know me  
'Cause you saw me growin' since I was young  
You think you can catch me  
When you look in my eyes and the sun goes down

You think you know me  
'Cause you saw me laughin' when I had fun  
You think you can trust me  
'Cause I never lied or said something wrong

Nobody knows  
The secret that I keep deep in my soul  
I never told  
Anyone close to me what it's all about

You can guess, I don't mind  
You can ask anytime, but I'll never tell  
In this case you'll stay blind  
You can guess, I don't mind  
You can ask anytime, but I'll never tell

Nobody knows  
The secret that I keep deep in my soul  
I never told  
Anyone close to me what it's all about

(2x's) Nobody knows  
The secret that I keep deep in my soul  
(3x's) Nobody knows

4. Forbidden Love

Every time I see you  
Feels like hundreds of people stab into my heart  
'Cause I really need you  
But we both know it is a forbidden love

Escape to a dreamland center

Where we can live without rules and nobody can find us  
Won't let a stranger enter  
Just forget about them and what we are meant to

Come and turn the lights out I want to believe it, I can feel it  
Come and turn the lights out I want you to sing it, join me dreamin'

Every time I see you  
Feels like hundreds of people stab into my heart  
'Cause I really need you  
But we both know it is a forbidden love

You and me, for all to see  
In no way will be  
People say, that we must not stay together  
You and me

(3x's) A forbidden love

Come and turn the lights out I want to believe it, I can feel it  
Come and turn the lights out I want you to sing it, join me dreamin'  
Come and turn the lights out I want to believe it, I can feel it  
Come and turn the lights out I want you to sing it, join me dreamin'

##### 5. HowCanUSleep

(2x's) How can you sleep

How can you sleep after all you've done to me  
How can you breathe with all the lies, make me believe  
How can I trust you without being a fool  
Seeing your cold heart makes me freakin' out

Your smell sticks to you, every breath makes me bleed  
Please hide what he's touched, all the things make me craze  
I'll never trust you 'cause I'm not a fool  
I'm gonna use you as a thief likes a tool  
Stop it don't start, I can't hold myself back  
Your body's so hot, but your soul is a crypt  
Stop it take me, I just want you so bad  
Your heart is a thief, can I get my mind back

(4x's) How can you sleep

(2x's) How can you sleep

One day it will be too late  
When your peace invades or your wish would be  
That one day you had listened to  
All the things that I've just said

Stop it don't start, I can't hold myself back  
Your body's so hot, but your soul is a crypt  
Stop it take me, I just want you so bad  
Your heart is a thief, can I get my mind back

(4x's) How can you sleep

## 6. EndOfDays

(2x's) Hey you the roof is coming down  
(Fire, desires, what's left of you)  
Get out of there, get out of time  
(Let's run down your luck)

Now you burn, it's my turn, it's my turn  
It's my turn, now you burn, now you burn

One day eternity will end for me  
And I pray for this moment to come when I'm free  
As in my revelation  
It's the end, the end of eternity  
And I want to see the light again  
When the end of days comes for me

It's my turn, now you burn, now you burn  
Now you burn, it's my turn, it's my turn

Hey you the roof is coming down  
(Fire, desires, what's left of you)  
Get out of there, get out of time  
(Let's run down your luck)  
As in my revelation

It's the end, the end of eternity  
And I want to see the light again  
When the end of days comes for me

(3x's) End of time, you were mine, end of time

## 7. BattleCry

Goth of the (nation)

Glowing eyes, heart of steel  
Battles cries, echo across plains  
Breaking bones, fading light, burning homes, innocents will die

Out of damnation  
Children of (war)  
Death of the (nation), down to the core

## 8. Run

I don't really care, I will never bury you  
It is easy, you don't believe me  
I don't really want, I would never want that  
You will hear me, the things I say

I don't really mind people of your kind  
You should leave me, I won't repeat it  
I would never say I want you to stay here  
Take it easy, that's not for me

My baby's moon and sun  
She's always on the run  
She's waiting for my call  
She wants to see me fall  
My baby's on the run  
She wants to have some fun  
And I'm not the one that's on the run

I don't really care, I will never bury you  
It is easy, you don't believe me  
I would never say I want you to stay here  
Take it easy, that's not for me

My baby's moon and sun  
She's always on the run  
She's waiting for my call  
She wants to see me fall  
My baby's on the run  
She wants to have some fun  
And I'm not the one that's on the run

(4x's) Baby's on the run

9. Heaven's Calling

(2x's) I am your master  
Your hearts beating faster  
There's no reason  
For your soul to rest  
You're only a slave  
Your Priest and your Mayor  
The fall of your kingdom

The dying light, the end of all hope  
The crying bride, with thousands of tears in her eyes  
Know tonight, it's almost hopeless  
To win this fight and barely survive this night

God, heaven's calling your name  
Help me fighting  
God, don't let evil win

(2x's) I am your master  
Your hearts beating faster  
There's no reason  
For your soul to rest  
You're only a slave  
Your Priest and your Mayor  
The fall of your kingdom

I've tried so hard, but I can feel it  
And now your gone and I just released it  
So what is left for the world to see  
To keep spinnin' endlessly

(3x's) God, heaven's calling your name  
Help me fighting  
God, don't let evil win

Don't let evil win, don't let evil win

## 10. FinalMoments

Knights falling of sky are being told to be  
Next in a galaxy, this is too old  
As my revelations heard by them  
Time always slows down for me  
And I'm waiting for the final day  
When time will end for me

But they all reach for my life lead hand  
When their final moments are about to end  
Can't you give me some more time my friend  
I've reached limit, I'm at my limit now

If time should be on our side baby  
Only a message of him satisfies  
Sends this game right at the lowly only

One day eternity will end for me  
And I pray for this moment to come when I'm free  
As my revelation is the end, the end of eternity  
And I want to see the light again  
When the end of days comes for me

But they all reach for my life lead hand  
When their final moments are about to end  
Can't you give me some more time my friend  
I've reached limit, I'm at my limit now

If time should be on our side baby  
Only a message of him satisfies  
Sends this game right at the lowly only

But they all reach for my life lead hand  
When their final moments are about to end  
Can't you give me some more time my friend  
I've reached limit, I'm at my limit now

## 11. Salvation

The empire faded away  
History turned into dust  
My memories will remain  
Salvation ends the pain

Losing time, day for day  
Vanity won't get you somewhere  
Crucified, yet alive  
Fading light  
This life is over

Demons crawl, up the wall  
Hunting for untainted memories  
Take your life, take control  
Overdrive, you can release it

The empire faded away  
History turned into dust  
My memories will remain  
(3x's) Salvation ends the pain

(2x's) Salvation ends the pain

Demons crawl, up the wall  
Hunting for untainted memories  
Take your life, take control  
Overdrive, you can release it

The empire faded away  
History turned into dust  
My memories will remain  
Salvation ends the pain

(3x's) Salvation ends the pain

## 12. TearsRain

I see the sadness in their eyes  
I see their desperation  
Desolation in their cries  
Divided passion

Developed over time  
Retain my saxon code  
Separate from the realm of fate  
From mortals and the gods  
Chosen by the heroes  
The righteous fellow kings  
If they still remain in shadows  
Fortune plays the strings

(2x's) Tears rain from skies  
No more lights in the skies

I see the sadness in their eyes  
I see their desperation  
Desolation in their cries  
Divided passion

(2x's) Tears rain from skies  
No more lights in the skies

In the end, battles won and here I stand  
Golden Dawn will rise again  
And humanity remains

## Album 5: Escape

### 1. Escape

Please don't let me go to waste

I need my memories erased  
'Cause I'm running out of space  
And the mirror shows no face

Let me escape  
From a distorted world  
It tears me apart  
So unchain me right now  
Unchain me right now

Take me away  
I need to get out of here  
My life is a mess  
I can take it no more  
Take it no more

(3x's) I reach for a sky  
Why won't you take me  
Outside where I'll be free  
And fly

Please don't let me go to waste  
I need my memories erased  
'Cause I'm running out of space  
And the mirror shows no face

(2x's) Let me escape  
From a distorted world

(2x's) Let me escape

## 2. GhostOfU

Since you've been gone  
I slowly go insane  
And now I'm sleeping on my own  
And when I wake up in the night  
I'm starting all the lights  
To see if you are by my side

I've been fighting with my demons  
I'm still not ready for the truth

'Cause you left without a reason  
And now there's nothing left to lose

It feels just like this night is haunted  
I see your shadow in the night  
It's all in my imagination  
And all my thoughts are running wild

Since you've been gone  
I slowly go insane  
And now I'm sleeping on my own  
And when I wake up in the night  
I'm starting all the lights  
To see if you are by my side  
It's just a ghost of you  
Yeah the ghost of you  
Oh I wish you were here  
When I see you so clear  
It's just a ghost of you  
Yeah the ghost of you  
Now we're back in my bed  
But it's all in my head  
(3x's) It's just a ghost of you, hoohoo

Since you've been gone  
I've got nowhere to go  
And now I'm sleeping on my own  
And when I wake up in the night  
I'm starting all the lights  
To see if you are by my side

It's just a ghost of you  
Yeah the ghost of you  
Oh I wish you were here  
When I see you so clear  
It's just a ghost of you  
Yeah the ghost of you  
Now we're back in my bed  
But it's all in my head  
(3x's) It's just a ghost of you, hoohoo

### 3. So Alive

You are livin' in the fast lane  
You got the gasoline inside your vein  
Always on the track  
Never look back  
No time to waste  
Keep up the pace

You are livin' in the fast lane  
You got the gasoline inside your vein  
Always on the track  
Never look back  
No time to waste  
Keep up the pace  
You only got one life  
Don't be afraid  
Make up your mind  
Don't hesitate  
Shout it from the top  
You're never gonna stop  
Fierce and loud  
Stand up and shout

You make me feel so alive  
Higher, higher  
Feel so alive  
Fire, fire

It's like living in a fantasy  
Disappointed by reality  
Trying to come back  
Start something new  
Build up yourself  
It's all up to you

Stay strong no matter  
What they say  
You keep getting better  
Everyday  
Hold your head up  
Never gonna stop  
Fierce and proud  
Stand up and shout

You make me feel so alive  
Higher, higher  
Feel so alive  
Fire, fire

You are livin' in the fast lane  
You got the gasoline inside your vein  
Always on the track  
Never look back  
No time to waste  
Keep up the pace

You only got one life  
Don't be afraid  
Make up your mind  
Don't hesitate  
Shout it from the top  
You're never gonna stop  
Fierce and loud  
Stand up and shout

(2x's) You make me feel so alive  
Higher, higher  
Feel so alive  
Fire, fire

#### 4. Problems

(3x's) Don't want to let my problems  
Get me down  
Trying not to let myself  
Hit the ground  
I got to find a place  
To rest my head  
Not gonna waste my life  
Feeling a lot of dread

(3x's) Don't want to let my problems  
Get me down  
Trying not to let myself  
Hit the ground  
You tried to help me

I tried to hurt me  
Flying around me  
And making me dizzy

(2x's) Don't want to let my problems  
Get me down

(3x's) Don't want to let my problems  
Get me down

(2x's) Don't want to let my problems  
Get me down

#### 5. Ashamed

I really feel ashamed to cause you sorrow

There's nothing I can do to make it better  
Everything I say will make it worse  
I acted like a jerk in my own anger  
What have I become  
What have I become to make you hurt

I really feel ashamed to cause you sorrow  
I never meant to fill your heart with pain  
And that what I did to you was awful  
Please believe me  
I will never do this again

I really feel ashamed to cause you sorrow

I really feel ashamed to cause you sorrow

I really feel ashamed to cause you sorrow  
I never meant to fill your heart with pain  
And that what I did to you was awful  
Please believe me  
I will never do this again

I really feel ashamed to cause you sorrow  
I really feel ashamed to cause you sorrow

## 6. Rewind

(2x's) Rewind

Walkin' through the city tonight  
Passin' bars ahead and behind  
Oh Lord has this ever been real

Everything is blurry inside my head  
All this dying to this spread  
I'm not the only one who said

(2x's) Rewind

You standing in the gloomy neon light  
With a smile which is so bright  
I guess your \*\*\*\*\* right

And now in my room feel so square  
Those reserves will serve us there  
I'll rescind them doubts

(2x's) Rewind

(2x's) Rewind

A melody makes feel as one  
laughing in that spotlight sun  
Sharing in a cloud  
And as if every tune suppose  
To creep and crawl inside my soul  
Reserves undisclosed

(3x's) Rewind

(2x's) Gloomy neon lights

(2x's) Rewind

## 7. LastGoodbye

(3x's) Bye bye

I wish I knew this way before you started acting  
Like a maniac, a maniac  
And now you're texting all the time  
Just practically crying  
That you want me back  
I know that's a trap

(3x's) Bye bye  
Ooh, bye bye

You said that I'd always be the one  
So why do I feel so alone now, alone now  
You said you'd always pick me up  
But everything you do is wrong now  
So wrong now

(2x's) Bye bye, ooh  
It's time to say our last goodbye

(2x's) Bye bye, ooh  
It's time to say our last goodbye

You say you wish that we could be together  
And that you've changed and now you  
Treat me better  
But after making up mind I have to tell you  
There's no turning back  
Boy that's a fact

(2x's) Bye bye, ooh  
It's time to say our last goodbye

(3x's) Bye bye  
Ooh bye bye

## 8. TheseWalls

(2x's) Break these walls

My demons die (They come and chase me again)

I let my demons die (They are pushing me down)  
I let my demons die (They come and chase me again)  
I let my demons die

(2x's) Break these walls

Break these walls  
I'm gonna tear them down  
I need to burn this place  
Down to the ground  
I have to break these walls  
I'm gonna tear them down  
I need to burn this place  
I'm gonna burn it down  
I have to

Break these walls  
I'm gonna tear them down  
I've got to let them fall  
I'm gonna stand my ground

Break these walls  
Tear them down  
Burn this place  
To the ground  
Break these walls  
Tear them down  
Burn this place  
Burn it down

(2x's) Break these walls

Time has come  
To set me free  
To change my life  
A brand new start  
This burning feeling inside of me  
I let my demons die

(2x's) Break these walls  
I'm gonna tear them down  
I've got to let them fall  
I'm gonna stand my ground

Break these walls  
Tear them down  
Burn this place  
To the ground  
Break these walls  
Tear them down  
Burn this place  
Burn it down

(3x's) Break these walls

9. UWith

(4x's) With you

(2x's) I ran away was afraid to face the truth  
But times have changed  
Hope you feel the same way too

(4x's) With you

You claimed that I wasn't there  
Or even by your side  
You asked me if I am sure  
That our love is right  
Don't look back  
To what I've done before  
I do regret that my heart was blind for so long

(2x's) Here I am with you  
Here I am, it's the only thing you should know  
That I'm here for you forever and ever and ever

(2x's) Here I am with you

You claimed that I wasn't there  
Or even by your side  
You asked me if I am sure  
That our love is right  
Don't look back  
To what I've done before  
I do regret that my heart was blind for so long

(6x's) Here I am with you

(4x's) With you

### 10. Heavylight

(4x's) Mixed rhymes make heavy light weight

When I mix rhyme make it heavy light weight  
Anticipate my next rhyme like my kick 808  
Deep in the abyss, day by day  
What I mean to ya  
Goin' like a dream  
On your favorite social media

(4x's) Mixed rhymes make heavy light weight

Old school rhymes, old school feel  
Lookin' at the original  
Yes your boy's real  
Its success you crave  
Man got you curious  
Step into me  
I'm like why so serious

(4x's) Mixed rhymes make heavy light weight

Light

Make it heavy light, make it make it heavy  
Let me show you, let me show what it takes  
Uh yeh, uh yeah  
Make it heavy light, make it make it heavy  
Let me show you, let me show what it takes  
Make it heavy light, make it make it heavy  
Make it heavy light, make it make it heavy

Can I make a wish on your shootin' star please  
Or on your aeroplane, yes I need one of these  
Critical breakdown, accept your beatdown  
Yeah come after me, logical fallacy

(4x's) Mixed rhymes make heavy light weight

(2x's) Make it heavy light, make it make it heavy  
Let me show you, let me show what it takes  
Uh yeh, uh yeah

#### 11. LifeGoesBy2

If I had could turn back the time  
Then I wouldn't change any rhyme  
Book of our life is written in stone  
I never regretted all the things that I've done  
Things that I've done

Wonder how the time flys clear  
When I see now it's almost here  
Days go by, years go by, life goes by  
You got no time to rest

If I could have one wish for free  
Then I wish you're forever with me  
Future is unpredictable  
But our love is so unforgettable  
Days go by, years go by, life goes by  
The times are right to die

Wonder how the time flys clear  
When I see now it's almost here  
Days go by, years go by, life goes by  
You got no time to rest

Wonder how the time flys clear  
When I see now it's almost here  
Days go by, years go by, life goes by  
You got no time to rest

Days go by, years go by, life goes by  
The times are right to die

#### 12. StartAgain

(2x's) Back to the start again

Narrow minds forced to stay small  
In this town where I was born  
Television taught them well  
To stay inside their pretty shell

(2x's) Back to the start again

Spend it all, save my soul  
Wasted time, now I am old

Smile along start to play again  
To be here, disappear

Back to the start again

This place is my first choice  
In sin travel and noise

I'm not meant to be here  
So I will disappear  
I feel isolated in the  
Place I hated

Smile along start to play again

(2x's) Back to the start again

## Album 6: Road

### 1. Road

There must be a road that I can take  
Just opened up my eyes  
To what I can do in life  
There must be a road that I can take

I no longer believe in magic  
I know that it might sound pathetic

I just opened up my eyes to what I can do in life  
There must be a road that I can take

All my dreams seemed impossible  
All the bad life unstoppable  
There must be a road that I can take

I no longer believe in magic  
I know that it might sound pathetic  
I just opened up my eyes to what I can do in life  
There must be a road that I can take

3. Killer

(2x's) There's a killer working on the dance floor

Sing and dancing that's what I need to do  
I know a club where I can get away from you  
Listening to the music makes me feel like I'm high  
Losing you will make me touch the sky

Ooh, yey

Stay away from here  
I don't want you close to me  
Stop taking all my energy  
All I want is getting free

Ooh yey

There's a killer working on the dance floor  
There he's gonna get you if you just move on  
There's a killer waiting on the dance floor  
There he's gonna catch you, just leave me alone

You're against the fire, you make my heart beat jump and burn  
You're a pretty liar you've only kisses in return  
I wanna kiss your fire only get my fingers burned  
It's mine own desire that you'd make a solid turn

Too hot people are walking away 'cause they are too hot  
Too hot hot  
Too hot people they never stay cause they are too hot  
Too hot hot  
You look like an angel, but your heart is cold as ice  
You need attention, a mess in your way

#### 11. Melody1

Find a world you've never dreamed before

Have you ever tried to live without  
Did you ever know what it's all about  
It's the sound of the wind that is blowin' my mind  
It's the beat of the earth makin' me sleep at night

Even when I'm down and think I'm gonna lose control  
Music's on it shows that nothing is impossible  
It fills your soul and my mind with harmony

Melody in every single word I speak  
It can warm your heart  
Makes me be a part of you  
Listen to the song I sing  
Find out what you've never been  
To inspire you  
Let your dreams come true oh

Find a world you've never been before

Everybody asks me what will be  
Everybody wants to know from me  
They're just asking there  
But listen to every word I say  
They're just talking without joining me

Day by day

Although anything is easily explained to you  
There's no show  
My emotions are all to true  
I'm neither acting nor changing personalities

Melody in every single word I speak  
It can warm your heart  
Makes me be a part of you  
Listen to the song I sing  
Find out what you've never been  
To inspire you  
Let your dreams come true oh

(3x's) Find a world you've never been before

## 12. InThis(Squirrel)World

In the dim candlelight

You and I

Our eyes meet

No need to be shy

Your hand in mine

We start to sway

In this moment

It's just us today

(2x's) In this world it's just you and me

Beneath the stars, so wild and free

With your love I found my key

In this rhythm, our souls set free

In your eyes

A spark so bright

Only stands for you

My guiding light

Our body's move

Just feels so right

We're gonna move

We dance until the night

(2x's) In this world it's just you and me

Beneath the stars, so wild and free

With your love I found my key

In this rhythm, our souls set free

(2x's) In this world it's just you and me  
Beneath the stars, so wild and free  
With your love I found my key  
In this rhythm, our souls set free

## 2. California

Drivin' down the east side  
Blue skies and the coastline  
Glasses and the wind in your hair  
Don't think about tomorrow  
Just kiss me soft and real slow  
I can't forget the touch of your skin

Don't tell me this won't last forever  
I'm sorry that I'm sentimental  
But it breaks my heart  
That it will never feel the same again

(2x's) Ooh, I left my heart in California

(2x's) Heart in California

When I'm in Toronto  
Memories and photos  
California fading away  
Empty places  
Phone calls, empty phrases  
Tell me why you're calling again

We both know this won't last forever  
I'm sorry that I'm sentimental  
But it breaks my heart  
That it will never feel the same again

Ooh, I left my heart in California

## Album 9: ListenBleed

### 1. ListenBleed

Another day  
Since you left me in the pourin' rain  
This hurts so bad  
Desperately I try to run away from all the pain  
It's so cold in the dark, I'm screamin' your name  
There's no one to blame

Can you hear that I'm screamin'  
Can't you see that I'm bleedin'  
All the pain that I'm feeling  
Since the day you walked away from me (2X's)

Everything is gonna be alright  
That's what you said to me, you knew it was a lie

Where are you now  
Wonder if your happy now in someone else's arms  
I'm falling down, I'm on my knees  
I'm beggin' you to come back home to me  
How could we fall apart, It makes me insane  
There's no one to blame  
Can you hear that I'm screamin'  
Can't you see that I'm bleedin'  
All the pain that I'm feeling  
Since the day you walked away from me (2X's)

I will love you to the end of time  
That's what she said to me, and you knew it was a lie

Can you hear that I'm screamin'  
Can't you see that I'm bleedin'  
All the pain that I'm feeling  
Since the day you walked away from me (2X's)  
Do you see that I'm bleedin' (3X's)

## 2. Something2Believe

(2x's) Give me something to believe in, umm

Can we be more than ordinary people  
Can't this be more than ordinary love  
When there's no emotion  
And your feet have nowhere to go  
Watchin' angels cry from far below

Right now  
Give me something to believe in, umm  
Right now  
I need something to believe in, yeah  
Give me something to believe in, umm  
Right now  
I need something to believe in yeah  
Right now

Were we free  
'Cause it's more than you were seein'  
Yeah we live  
In the ordinary world  
When there's no emotion  
And your feet have nowhere to go  
Watchin' angels cry from far below

Right now  
Give me something to believe in, umm  
Right now  
I need something to believe in, yeah  
Give me something to believe in, umm  
Right now  
I need something to believe in yeah  
Right now

Give me something to believe in, umm  
Right now  
I need something to believe in, yeah

Give me something to believe in, umm

Right now

I need something to believe in yeah

(3x's) Right now

Yeah

3. KeepPrayin'

I can't deny that I am thinking about you all the time

Those summer nights, when we were dancing I thought you'd be mine

I keep prayin' to the stars above, that you'd recall my name

I remember every word you said

But you never called me back

Why can't you see, all the pain your causin' inside me

Your words so sweet, don't understand the evil games you play

I keep prayin' to the stars above, that you'd recall my name

I remember every word you said

But you never called me back

(3x's) I keep prayin' to the stars above, but you never called me back

4. WhereIBegan

Lately we've been growing apart

But I wish it was closer

I don't even know who you are

Though I can barely even say I know ya

Only know that I realize that I am back

Where I began

And another night I lay wide awake

I try to understand

I remember when we used to love

Now we're barely talkin'

It's like livin' in the past  
And the silence is becoming exhaustin'  
Pictures on the wall keep reminding me  
That I just lost a friend  
This way our hearts say goodbye  
We could I thought that we were meant

(2x's) And another night I lay wide awake  
I try to understand  
Only know that I realize that I am back  
Where I began  
(3x's) Only know that I realize that I am back where I began

#### 5. IBelong2U

Everyday and every hour  
Every second you're around  
Sparks fly, If I try  
Separate from you I die

I must confess, I'm beggin' you  
Don't wanna be lonely tonight  
I'm so confused when you're out of sight  
You're my baby, I'm your child

Stop for a moment to listen inside  
Stop for a moment to walk with me  
Stop for a moment and think about it  
Stop for a moment to talk with me

I belong to you, every step I do  
I belong to you, always with you  
I belong to you, we got a clue  
For all the love in our lives

Everyday and every hour  
Every second you're around

Sparks fly, If I try  
Separate from you I die

Stop for a moment to listen inside  
Stop for a moment to walk with me  
Stop for a moment and think about it  
Stop for a moment to talk with me

(2x's) I belong to you, every step I do  
I belong to you, always with you

I belong to you, we got a clue  
For all the love in our lives

#### 6. TimeBomb

I'm like a big ol' time bomb

She took my love for granted  
Yes she threw it away  
Right now I feel so heavy  
Ain't got nowhere to stay

I'm like a big ol' time bomb  
Your gonna know when I blow  
It's time we make this official  
We're gonna make it you know

Hey hey baby, I think I need some air  
Hey hey lady, I'm burning in here

I'm like a big ol' time bomb  
Your gonna know when I blow  
It's time we make this official  
We're gonna make it you know

(2x's) I'm like a big ol' time bomb

I'm like a big ol' time bomb

7. BoneUBrake

(2x's) If someone tells you  
This you can't do  
Should've asked why  
Why can't I (do) everything that you do  
Put a smile on me dude  
As long as it is true

(2x's) Every bone that you break  
Every bruise, every ache  
Will heal 'cause it's you  
Invincible, unbeatable strong, so are you

(2x's) Some look like a lady  
Some sweat like a man  
I like them and they like me  
I can see my friends  
Beautiful and free

Every bone that you break  
Every bruise, every ache  
It will heal 'cause it's you  
Invincible, unbeatable, strong, so are you

Bone that you break  
Every bruise, every ache  
Will heal 'cause it's you  
Invincible, unbeatable, strong, 'cause it's you

(2x's) Every bone that you break  
Every bruise, every ache  
It will heal 'cause it's you  
Invincible, unbeatable, strong, 'cause it's you

8. Ridin'High

In the sky stars are shinin'  
We gonna ride to the break of dawn  
On this road, pretty mama, we are drivin'  
Far away 'till we're gone

(3x's) With you by my side I'm feeling fine  
I'm ridin' high

Come on little mama, oh God bless  
Mmm you look fine in that little blue dress  
When I wanna party she's always down  
She says, alright baby turn the music loud  
She's what I've been waiting for  
I don't have to look no more

In the sky stars are shinin'  
We gonna ride to the break of dawn  
On this road, pretty mama, we are drivin'  
Far away 'till we're gone

(2x's) We gonna ride to the break of dawn

(2x's) With you by my side I feeling fine I'm ridin' high

9. Never

I need you baby  
I never do what you want  
I never do what you need  
Don't treat me honey  
Like a snake on the ground  
I never go on my knees

Wooh

There's a fire burnin'  
Out in the streets  
I can't barely see it  
You claim it was my fault  
But I know it was you  
Still hidin' the truth  
What have you done with them  
They are screamin'  
Can't you hear them, can't you hear them  
Did you ever loose a tear, no no, no no  
You never got a feelin'

I need you baby  
I never do what you want  
I never do what you need  
Don't treat me honey  
Like a snake on the ground  
I never go on my knees

You stupid boy  
Don't know that love always wins  
They already broken the door  
So don't ignore that shame is the only way  
For all your sins

The fire's getting stronger  
You don't have a chance  
Here comes the end  
They're gonna get you 'cause  
Your hearts full of greed  
But you never succeed

(3x's) I need you baby  
I never do what you want  
I never do what you need  
Don't treat me honey  
Like a snake on the ground  
I never go on my knees

10. PurpleCandy

In the dark, it looks like you look through my heart  
Warm and shadow, miracle  
Candy colors magical  
Never let me go

Purple candy haze and my life is great  
Smiles upon my face  
Purple Candy

(2x's) Heart to heart  
Chasin' dreams right from the start

I need my candy  
I need my candy king by my side  
I need my candy, I need my candy  
To become the ruling queen

Honestly  
Promise me you'll never leave  
You're my heart of flower beads  
Workin' in the summer breeze  
Never let me go

Purple candy haze and my life is great  
Smiles upon my face  
Purple Candy

(2x's) Heart to heart  
Chasin' dreams right from the start  
I need my candy  
I need my candy king by my side  
I need my candy, I need my candy  
To become the ruling queen

(2x's) Everywhere you are  
You're my shootin' star  
We have come so far

From home

(4x's) Heart to heart

Chasin' dreams right from the start

### 11. NewWorld

I watch the city lights illuminate the bright

I let it in and let it out

I feel the summer in the air

The sound of freedom everywhere

So raise a glass

Your home's where you belong

Feel the love my brothers sing along

Celebrate and drinking all night long

Feel the Earth movin'

(2x's) Into the new world

Just let it in and let it out

Oh, raise a glass and oh

The night is coming so

There's a light that leads into a world

A place of the unknown

Discovered by my own

Raise a glass and sing along

The stars are shining bright on me

They're lighting up so suddenly

I let it in and let it out

This feeling deep inside of me

Holding me back so easily

When I look up to the sky

Keep myself from falling high

Makes me feel like I'm alive, I'm alive

Into the new world  
(2x's) Just let it in and let it out

Oh, raise a glass and oh  
The night is coming so  
There's a light that leads into a world  
A place of the unknown  
Discovered by my own  
Raise a glass and sing along

(2x's) Into the new world  
Just let it in and let it out

Oh, raise a glass and oh  
The night is coming so  
There's a light that leads into a world  
A place of the unknown  
Discovered by my own  
Raise a glass and sing along

## 12. UntilTheEnd

Sittin' here on my own now  
Cryin' my heart out  
Can't even see  
Didn't know what you meant when  
You said you were leaving  
Nobody did

Mistakes we made left us so low  
But things brought us so close  
Just you and me  
The time we had was so fleeting  
Life in between death  
Gotta let go

And I found out an hour ago

I won't let you die alone

'Cause you helped me

Forget me pain

I won't let you die alone

## Album 10: ShadowPlay

### 1. ShadowPlay

Oh, don't you

The days we spent together seem so far away  
If I met you today I just wouldn't know what to say  
I thought the two of us were here to stay  
But you and me were born to decay

Oh don't you, think back sometimes

It was you who made me see  
You promised you would never leave  
Step (on) my heart and turn away  
Let's become our shadow play

I guess they call us the old fade away  
If you said rumor has it, I just wouldn't throw this away  
I think the two of us were meant to be  
But I have to make you see

Oh don't you, think back sometimes

It was you who made me see  
You promised you would never leave  
Step (on) my heart and turn away  
(2x's) Let's become our shadow play

I guess they call us the old fade away  
If you said rumor has it, I just wouldn't throw this away  
I think the two of us were meant to be  
But I have to make you see

It was you who made me see  
You promised you would never leave  
Step (on) my heart and turn away  
(4x's) Let's become our shadow play

## 2. KeepBurnin'

(2x's) Oh yeah

(2x's) This music runnin' through my veins  
Is heavy metal in my brain

All the world is turnin'  
My love for music keeps on burnin'

Keeps on burnin'

(2x's) I don't know what to do  
Woh with I owning you

All the world is turnin'  
My love for music keeps on burnin'

(3x's) All the world is turnin'  
My love for music keeps on burnin'

## 3. ShareThisDream

(3x's) Woh

I hear a whisper in the air  
That we can go just everywhere  
To places we have never seen  
Not even in our wildest dreams

We have seen all that  
For a long long time  
You and me we're going to see  
For a new destiny

In time, we will be gone  
Tell me, this can be one

One day I know we will  
Share this dream

Believe in me, for I can see  
There is a new reality  
For you and me, why don't you see  
Why don't you see

Why do we need to touch the stars  
When we are happy where we are  
The places we have never seen  
Are nothin' but one of your dreams

It's a fantasy  
Playing melody  
You and I are not meant to flee from reality

In time, we will be gone  
Tell me, this can be one  
One day I know we will  
Share this dream

Believe in me, for I can see  
There is a new reality  
For you and me, why don't you see  
Why don't you see

(2x's) In time, we will be gone  
Tell me, this can be one  
One day I know we will  
Share this dream

#### 4. SuperGirl

(2x's) Bam, babum bam bam bababaum

When you ask me if I want to say

My mind jumped to the moon  
My eyes burned until noon  
My body filled with thousand lights  
Yesterday, you took my hands and didn't let go  
We spin around and round and round and round  
People starin' at our show  
Suddenly

I want to be your supergirl  
Let me fight for all your love  
I want to be your wondergirl  
And I'll bring magic into your world

Hey yea, yea, yea yea, yea  
Dum, dadum dada doh

The lights running through your heart  
All the veins vizing, all the limbs vibrating  
You believe that you can fly  
Can you feel  
That those feelings never stop  
They go on, and on and on and on  
Like a never ending trip  
You should know

What you want, what you need  
Let me care, let me see  
What you want, what you need  
Let me dare, let me be

(3x's) I want to be your supergirl  
Let me fight for all your love  
I want to be your wondergirl  
And I'll bring magic into your world

5. Comfortable

I love you, you turned away, away  
Made me stay I need you, you walked away

Oh yeah, oh yeah, yeah

I might not be perfect, I might not be pretty,  
I might not be a model, but understand me  
More pain 'cause nothing to say  
It hurts, every word turns into a fight  
It hurts every day

Oh yeah

Oh boy what can I say you're getting comfortable  
About a year ago you said I love you so  
Now you don't care anymore  
Put your head on my knees getting comfortable  
Woah comfortable, woah  
Put your head on my knees you're getting comfortable

Tears are falling on my cheek and I suppose  
How can I take it anymore  
Boy, you are so cruel

Oh boy what can I say you're getting comfortable  
About a year ago you said I love you so  
Now you don't care anymore  
Put your head on my knees getting comfortable  
Woah comfortable, woah  
Put your head on my knees you're getting comfortable

What did you do, what did you do  
Away, away, away, away Yeah

6. ItWasn'tMe

When I was young  
Just a little native girl  
My mother told me  
Don't get blinded by the  
Tiny things of the world  
I smiled to her face  
And whispered mom world is mine  
It's not gonna hurt me, everyone's friendly  
No one needs to cry

Just one little thing  
Reminds me of the day and the pain  
I changed my mind  
Never been starry-eyed again

It wasn't me, hoh it wasn't me  
It wasn't me, hey yeah

I wish that I hadn't thought so  
When I was playing with the bees  
The sun fun, they were spinnin' around  
And their flower love was so deep  
Summertimey day, all the flowers pasted away  
And the bees stared at me, they never believed  
That the sun has made them weak

Just one little thing  
That keeps the hurt away from me

7. SweetestTemptation

Girl you're my sweetest temptation  
Say can you feel the sensations  
Girl you're my sweetest temptation  
Oh you set my heart in rotation

Rotation baby yeah

Girl I wanna kiss you

The taste of your lips is so sweet

Wanna dance all night long

To the rhythm of your heartbeat babe

Move your body closer

I wanna feel the heat inside your chest

My hands all over your body

Wanna dance to the morning light

(2x's) Yeah all right, dance to the morning light

Girl you're my sweetest temptation

Say can you feel the sensations

Girl you're my sweetest temptation

Oh you set my heart in rotation

Girl you're so irresistible

Oh let's get physical, physical

I wanna set the night on fire

And feel the rhythm of your heartbeat babe

Your lips are like poison

Girl I'm addicted to your touch

You're the sweetest seduction

I wanna dance to the morning light

(2x's) Yeah all right, dance to the morning light

Rotation baby yeah

(2x's) Girl you're my sweetest temptation

Girl you're my sweetest temptation

Oh you set my heart in rotation

(2x's) Rotation baby yeah

## 8. CrazyThings

I miss the crazy things we do

I miss the crazy things we do

Can't stand the sight of when you're gone

I'm standing feeling empty and alone without you

I need you right here by my side

Staying near everything's alright, that's all true

I try to find my way home to you

'Cause I'm missing all the crazy things

We use to do

(3x's) I miss the crazy things we do

Oh, when I'm with you there's nothing wrong

I'm feeling whole, I'm feeling strong

You brought the colors to my life and one day

You'll be my Wife, that's for sure

I try to find my way home to you

'Cause I'm missing all the crazy things

We use to do

(12x's) I miss the crazy things we do

## 9. RainOfLove

I don't want to be like a prayer on my knees

Buried in the shelter of the night

And I don't beg for a better peace than war

I'd like take a prisoner and fight

Dive in the rain of love

Where my dreams start to go

And my feelings will grow

Into the sky above

I leave my fears down below

And I want you to go

With all my senses and feelings  
And my power deep inside  
My heartbeat is pushing the blood through in my veins  
The water's turning red

The pourin' rain is healing all my pain  
The soul of the sky's weepin' tears  
If you are a rising star  
You better overcome some of (your) fears

Dive in the rain of love  
Where my dreams start to go  
And my feelings will grow  
Into the sky above  
I leave my fears down below  
And I want you to go

With all my senses and feelings  
And my power deep inside  
My heartbeat is pushing the blood through in my vein  
The water's turning red

(2x's) Dive in the rain of love  
Where my dreams start to go  
And my feelings will grow  
Into the sky above  
I leave my fears down below  
And I want you to go

#### 10. Eye2Eye

(2x's) You're running round in circles

Your running round in circles  
And you choke without a rest  
You're hiding all your feelings

And you always wear a mask

You're doing all the things  
That you really want to do  
I'd like to love you baby  
And I hope you love me too

Eye to eye, see you and I  
Rely on close ups  
Eye to eye, see you and I  
Rely on what you are

Never play with fire  
Always your desire  
Never risk the pain  
Of broken hearts

I am satisfied  
'Cause you are just the best  
But if you're gonna leave  
And you lie to me at last  
I opened up my soul  
And show you all my pride  
We need to have respect  
And I give you all my life

Eye to eye, see you and I  
Rely on close ups  
Eye to eye, see you and I  
Rely on what you are

Gonna be the one  
Follow in the sun  
Always on the run  
Ahead of lies

(2x's) Eye to eye, see you and I  
Rely on close ups  
Eye to eye, see you and I  
Rely on what you are

## 11. Freak

Love me, hate me, drill me, date me  
Feel me, eat me, steal me, leave me

(2x's) They don't catch my eyes of you yeah

Love me, hate me, steal me

#### 4. OneInAMillion

I gave what you asked me for  
I gave you space to grow  
I can see that your head hangs low  
I know you've hurt before

Maybe if you give me a minute  
I'll tell you how it ends  
Even though your head is spinnin'  
You will fall in love again

(2x's) I can end your lonely days  
Just let me be your one in a million  
Won't you take a leap of faith  
To let me be your one in a million

I can end your lonely days  
Just let me be your one in a million

Hopin' that you show me forgiveness  
Down on my knees again  
I'm prayin' to the lord won't you help me  
I hope that you show me forgiveness

(2x's) I can end your lonely days  
Just let me be your one in a million  
Won't you take a leap of faith  
To let me be your one in a million

I can end your lonely days  
Just let me be your one in a million

(2x's) Let me be your one in a million

## 5. Lost

I'll be there to the night till the morning comes  
Now, don't be afraid of the change with me alone  
I'll be there on your way if you're feeling lost  
There's a whole world there, take a stance  
If you wanna go

Be there if you can be there  
Whenever you're lonely  
You or no one ever needs to be  
On their own  
But when you see it like that  
You make my home scream

'Cause every time that you hear it like that  
I wonder how we would face

I'll be there to the night till the morning comes  
Now, don't be afraid of the change with me alone  
I'll be there on your way if you're feeling lost  
There's a whole world there, take a stance  
If you wanna go

I need somewhere safe where I can be alive  
Lost in a dream like I'm comatose  
And you say we're not alone

(2x's) I'll be there on your way if you're feeling lost  
There's a whole world there, take a stance  
If you wanna go

## 6. Miracle

Are you ready to show your love  
Are you ready to let your demons go  
Are you ready to be alive  
Are you ready to see the other side

I know you're gonna hear me tonight  
I'll give you love, never let me go  
Yeah I'm gonna trust you, might not be to  
You fall at all

(2x') Only one step away from a miracle  
I feel the mood when I sing  
Your aim gets me high, but your booty know  
If you look at me like I'm satan  
I'll have to please like oh, oh, oh  
(2x's) Only one step away from a miracle

Ready in my head like I know somehow

Ready like a distant snowfall

Are you ready to show your love  
Are you ready to let your demons go  
Are you ready to be alive  
Are you ready to see the other side

(2x') Only one step away from a miracle  
I feel the mood when I sing  
Your aim gets me high, but your booty know  
If you look at me like I'm satan  
I'll have to please like oh, oh, oh  
(2x's) Only one step away from a miracle

I'll will always be turnin'  
Magically pulling my sleeve  
If we can face all our burdens  
We'll see many new days begin

(4x') Only one step away from a miracle  
I feel the mood when I sing  
Your aim gets me high, but your booty know  
If you look at me like I'm satan  
I'll have to please like oh, oh, oh  
(2x's) Only one step away from a miracle

## 7. Nighttime

(2x's) In the sands of the night

Night, the sands and the stars appear  
I embrace the smell, I let go of  
All fear in this moment  
Of stillness I've found  
Alert in this heart  
Of this smoke, I let go  
Of all worries today  
And make 'em fly away

In the still of night  
Please stay in the moment

(2x's) I close my eyes and  
And let my soul rewind

(7x's) In the nighttime

In the quite moments, when time stands still  
I let my mind wander, I let my soul fulfill  
The beauty of the beast, the grace and the calm  
And the smell of embrace fills my heart so with a song, yeh yeh

(7x's) In the nighttime

In the heart of the smoke  
I let go of my worries today  
(2x's) And make 'em fly away  
In the still of night  
Please stay in the moment

(12x's) In the nighttime

I can't believe my eyes  
My heart is beating faster  
To me it's no surprise  
Oh oh yeah

Together forever just don't break my heart

(2x's) Yeah, yeah, yeah

(5x's) Together forever

## 11. Water

(Instrumental with vocalizations)

## 12. SoulRewind

I'd don't want to know a thing about  
What you're doin' right now  
I'm still out here  
Staring at the light  
Thinkin' about the time that we could....

Let's feel alive, feelin' your soul  
Feeling alright, watching you move  
To the melody  
Your heart is pure  
I know it is

Hopin' one day you'll be mine  
But until then  
I keep dancin' till the sun goes  
About a love that's gone  
Keep holding on  
(4x's) Till the end of the night, till the dawn arrives

In the silence of the night

Let's feel alive, feelin' your soul  
Feeling alright, watching you move  
To the melody  
Your heart is pure  
I know it is

In the silence of the night

(2x's) I close my eyes and let my soul rewind

In the silence of the night

Night, the sands and the stars appear  
I embrace the smell, I let go of  
All fear in this moment  
Of stillness I've found  
Alert in this heart  
Of this smoke, I let go  
Of all worries today  
And make 'em fly away  
In the still of night  
Please stay in the moment

In the silence of the night

(2x's) I close my eyes and let my soul rewind

In the silence of the night

(5x's) I close my eyes and let my soul rewind

## Album 13: Let's Ride

### 1. TakeMoney

Kick it

Put your hands in the air, make that money uh

That's for sure

I said take money, money

Take money, money, money

Take money, money

Take, brake, money, money

I got the chitter chatter

And we can make your face shatter

Like again, once more

I drop it down on the floor

And grab the floor for

What you wanna do, oh no

Bring it, come on, bring it, come on

Take money, money

Take money, money, money

Take money, money

Take, brake, money, money

Say, you feelin' me man

When I'm doin' the things I talk about

I'm not what about

I know I'm not trying to pee

But he can suck my N-U-T's

I'm not trippin'

You know I said it once again

What, what, what

Turn the light on, it's on

We can do it from the crack of the dawn

It slacks sadame sadawn

I don't even trip no more

When my man cracked a beat

When he cack seat  
'Cause you know why I be in the black seat  
Come on, bring it, come on  
Put your hands in the air, make that money uh  
That's for sure  
I said take money, money  
Take money, money, money  
Take money, money  
Take, brake, money, money

Umm, umm baby

Take money, money  
Take money, money, money  
Take money, money  
Take, brake, money, money

Put the hats and mat with the backpack  
Whatcha doin', I'm startin' to screwin'  
Anybody that comes near me and my faces  
'Cause you know I'm about to kick feces  
What's the matter, 'cause you know I got the platter  
Come on, come on

People holla at me and tell me what's goin' down  
Hit pound when I come around  
They can give me the pound  
Don't use that word, N-word, it's absurd  
Back in the day, you was nerd

(2x's) Put your hands in the air, make that money uh  
That's for sure  
I said take money, money  
Take money, money, money  
Take money, money  
Take, brake, money, money

## 2. Let'sRide

Just bang your head to the music  
All my people know it's the realness  
Just stand up for the music  
Keep it bouncin', you know how we do this

Aw yeah

I don't even try it, I just go out and I get it  
Representin' all the way for sure, and match to fit it  
Real recognize, real the mic is down for spittin'  
Let your DJ cut it up. It's the lifestyle that we're livin'  
Graffiti B-boy stands, they chillin'  
When the turn table spin they break on in to wishin'  
They different than them other folks around you 'cause  
You gotta do it your way since we only live once, come on

Just bang your head to the music  
All my people know it's the realness  
Just stand up for the music  
Keep it bouncin', you know how we do this

That money, uh huh

Look up

We sittin' back reminiscing about them good old days  
When B-ball and the boombox was the thing to play  
Stay hangin' out everyday with the clique no doubt  
In the car from night till dawn, we walk that walk  
They takin' off  
How time flys as I look up at the sky  
Wonder why, now wonder why we stay so fresh and fly, yeah  
True rotters ever since day one  
Can't stop, won't stop, yeah we stunt for fun, come on

One life yes, we only live once  
We don't play around, no we don't front  
Good vibes, have a good time  
Put your hands to the sky

Come on let's ride

Come on now

You gotta do it your way, now homie make it count  
Let the world know what you about, without a doubt  
It's crazy when you spreadin' love universal  
Hush your mouth player when you act all controversial  
So all my peoples from the front to the back  
Make some noise and show me where you at  
On attack, aw yeah  
It's time we rock it till we go insane  
Till the wheels fall off, until we off the chain

One life yes, we only live once  
We don't play around, no we don't front  
Good vibes, have a good time  
Put your hands to the sky  
Come on let's ride

No doubt

Hang loose, like what we do, we right here counting stacks  
Money speak the truth, to the NY youth  
Strive forward, never back down  
Hold it down, put another jewel in your crown  
Turn a frown into a smile, don't waste your time  
Walk straight and keep your head up high  
Keep your head up high  
Teach you how to shine  
When it's back to work  
Believe in yourself 'cause you  
Just know your worth, now come on

Just bang your head to the music  
All my people know it's the realness  
Just stand up for the music  
Keep it bouncin', you know how we do this

One life yes, we only live once  
We don't play around, no we don't front

Good vibes, have a good time  
Put your hands to the sky  
Come on let's ride

Just bang your head to the music  
All my people know it's the realness  
Just stand up for the music  
Keep it bouncin', you know how we do this

Right there

### 3. MoneyCold

(5x's) Paper throw that paper  
Money cold frozen ice, neck cold frozen ice  
Money cold frozen ice, money cold frozen ice

Ghetto ambassador, mellow philosopher  
You may have to adjust your camera aperture  
'Cause I'm the man with the plan that's been plannin' to  
Take over the planet like a dictator get paper  
The new Napoleon looking like a menace  
Stuck up on it to the ground  
Surprise I struck petroleum  
I'm the sickest when it comes to these raps  
Scriptures flip a scrip into a motion picture

(2x's) Breathe in, breathe out  
Throwin' money like we tryin' to hit a cloud  
From the east, west, north to the south, down south  
Stackin' paper money makers in the house

(5x's) Paper throw that paper  
Money cold frozen ice, neck cold frozen ice  
Money cold frozen ice, money cold frozen ice

Back on the scene like an extra who's next to

This protacin' with this prolific lecture, yeah  
I'm inclined to design this here rhyme  
To inspire new styles that don't sound whack  
Like your kind do

In this business like visit in foreign lands  
For more than business, what is this  
I dig this son  
It's a lot more like abstract, but I went way past that  
Oh no look just what that got me to

(2x's) Breathe in, breathe out  
Throwin' money like we tryin' to hit a cloud  
From the east, west, north to the south, down south  
Stackin' paper money makers in the house

Money cold frozen ice, neck cold frozen ice  
Money cold frozen ice, neck cold frozen ice

(4x's) Throw that paper, throw that paper  
(2x's) 10, 20, 50 flickin' 100's  
Back it, back it up, back it up baby girl, back it up  
Tune in, tune out  
Turn it up until the lights burn out(2x's)

(2x's) Breathe in, breathe out  
Throwin' money like we tryin' to hit a cloud  
From the east, west, north to the south, down south  
Stackin' paper money makers in the house

(12x's) 10, 20, 50 flickin' 100's

Money cold frozen ice, money cold frozen ice  
Money cold frozen ice, money cold frozen ice

#### 4. Greenback

Mind on my money and my money on my mind  
Crisp and new wiffs, money all the time

Diamonds in my hands  
Hold up, troop won't stop  
It's like that boss I play to win  
So rough can't stop that cream on top  
I tried my favorite vans  
All black interior, serious  
That exterior furious  
Come through superior glosses  
I stack a lot of ends  
Never look just piling money  
Have no time to dating twins  
Takin' out that simple empty cup  
Now I'm all grins  
Now I got that rolls, now I got that ring  
Now I got a lot of access to a  
Room or a plane

Mind on my money and my money on my mind  
Crisp and new wiffs, money all the time  
It's all about the stack  
All about the greenbacks

That's right

It is on me, put it where I wanna be  
Poppin' up like I'm walkin' in Memphis with Bruce Hornsby  
The horns be announcin' the rivals in every state  
Master and commander, I design my fate  
I don't wait, I'm never finished, I'm never through  
Think of better whatever yo, the model was pushed through  
Collecting hundreds, I got some dimes  
Harrah's built two floors deep, and they all mine

Mind on my money and my money on my mind  
Crisp and new wiffs, money all the time  
It's all about the stack

All about the greenbacks

Yeah, yo

Doin' this, how I'm I doin' this

How we be doin' this, Look how we doin' this

Gotta make five, gotta make six

Gotta bunch of diamonds on his god damn wrist

How we stay in place, how we can't miss

How we makin' money now hand over fist

How we got that, how we this

How we drop on track with a brand new twist

How we keep growin', how we keep goin'

How we keep turning up fresh like this

Multi-million, investment ceiling

Another level of rebel, yo it's so revealin'

Get your mind right and get yourself right

And get your negotiation game up and

Keep it airtight, yes sir

You gotta leave your feelin's

Never catch your feelin's

Never let your guard down

For those twisted feelin's

It's time to let your squad down

Not forget them feelin's

We always with swagger

We come and get it

Base and engine hummin'

Will nothin' stop us for running

Harlem to Hollywood

We told you we still comin'

(2x's) Mind on my money and my money on my mind

Crisp and new wiffs, money all the time

It's all about the stack

All about the greenbacks

## 5. CandyLove

Candy love  
A love that's so divine  
Candy love  
I just can't get enough

We were out together  
That's when I fell in love  
I hope it lasts forever  
I just can't get enough  
Your lips taste like honey  
As sweet as cherry pie  
I never loved somebody  
Until I saw your eyes

Candy love  
'Cause your my candy love  
Your my candy love  
'Cause your my candy love

Gotta have your cleanness  
I wanna make you mine  
We got a thing that's endless  
A love that's so divine  
I cherish every moment  
I'll never let you go  
I've just gotta show it  
I really love you so

Candy love  
'Cause your my candy love  
Your my candy love  
'Cause your my candy love

(2x's) Candy love  
'Cause your my candy love  
Your my candy love  
'Cause your my candy love

## 6. Bounce

Mic check one two one two  
(2x's) Uh, I represent this is what I do

Bounce, yeah

Would've caught that, would've dropped that  
Put twenty large on a go ahead and flop that  
Want to act up, get your stacks up  
Hit a bass drum, vibrate the track up  
Is he goin' in, is he goin' out  
Easy come easy go what it's all about  
Mama puttin' in words, she gonna get it out  
In the club on the floor she can work it out  
What about you, show you how to  
Get your hustle on, make a couple thou(sand) too  
Then double that, here's a come back  
Chop trees call me Paul Bunyon lumber jack  
Can I get a mic check, get a sound check  
I've been out here, you ain't been around yet  
I've been in and out the danger zone  
Thirty G's a show I get paid to flow

Let your inhibitions go, time to advance  
This is what I came to do, make them dance  
Freaking out body shaking, get up out your stance  
This is what I came to do, make them dance  
Yeah, get it, bounce, yeah

Got the whole world in a mac control  
Tricks up my sleeve that's magical  
Taste for the blood like a cannibal  
Out of control, call me animal  
Better jump over, if you're on the fence  
Honey leaned over, now she's all intense  
She on the move, I'm on ground  
We all over the hood like an ornament  
How you hide that, flow with no mic check

Amp up the party riskin' the brightest

Stunnin' like midas right up the bar  
Sellin' my music right out the car  
Temperatures risin', hours to blow  
Heat up the groupies, Marilyn Monroe  
Get 'em upstage from out the front row  
Ice cold flow like twenty, right out it

Let your inhibitions go, time to advance  
This is what I came to do, make them dance  
Freaking out body shaking, get up out your stance  
This is what I came to do, make them dance  
Yeah, get it, bounce, burr  
Work it, move it, work it, move it

(2x's) Let your inhibitions go, time to advance  
This is what I came to do, make them dance  
Freaking out body shaking, get up out your stance  
This is what I came to do, make them dance

Yeah, get it, bounce, yeah  
Mic Check one two one two

## 7. 1Step

Let's get into this

First we hit 'em low  
Then we hit 'em high  
Under-rateable we made it to the finish line  
Rhymes designed to combine and intertwine  
Spring to the summer, fall, even wintertime

Beats bangin' harder than head-on collisions  
We make incisions with precision and quick decisions  
'Causin' double visions if you ain't up to speed  
You need to speed it up partner, Keno Reeves

One step, two step, three  
Chillin in my beat boy stance tryin' to stay free  
I make the music for the clubs and the chiefs  
Even got it thumpin' in your head phones in the streets now

You reach a final hours, minutes, seconds, last days  
Snow storms backed-up with a heat wave  
Nobody stays the same and everything is different  
Parallel dimensions shifted, soon as I rified it

Now you can boogie all night until your feet hurt  
And if you don't know about me, better do some research  
One step, two step, three  
Chillin' in my beat boy stance  
Tryin' to stay free

Red light, yellow light, green  
Limpin' in my cane, goin' with a new gangsta lean  
You see my squad popped up on the scene

Brand new Ferrari, so fresh, so clean

(2x's) I'm getting down  
And work it to the ground

Now put your hands up for the realists  
Now wave 'em all around, if you really feel this  
I hit the track, now it's time to kill this  
Reemerge from the underground as the illest

Skills on the microphone you getting' analyzed  
Under microscopes like DNA and chromosomes  
These suckas are pathetic, my energy kinetic  
Soon as I said it, y'all follow and you shall regret it

One step, two step, three  
Chillin in my beat boy stance tryin' to stay free  
I make the music for the clubs and the chiefs  
Even got it thumpin' in your head phones in the streets now

Call a medic, I got you in the danger zone

Too late, make arrangements with the funeral home  
'Cause my boom bat rap white catastrophic  
You can keep your gothic to yourself, I redefine logic

And I realign margins for a high profit  
Swimmin' through industrial waste and recycled garbage  
When said and done I hit the center of the target  
Turn off the lights and welcome to a whole world of darkness

Red light, yellow light, green  
Limpin' in my cane, goin' with a new gangsta lean  
You see my squad popped up on the scene

Let's get into this  
(2x's) I'm getting down  
And work it to the ground

(2x's) One step, two step, three  
Chillin in my beat boy stance tryin' to stay free  
I make the music for the clubs and the chiefs  
Even got it thumpin' in your head phones in the streets now

## 8. Danger

Lights off, red alert  
It's time to put in words  
Better now before I get put in the dirt  
Another sucka just got his feelings hurt  
Tried to dis', but got exposed and sunburnt

Time to shine on 'em, drop a rhyme on 'em  
Had a line, now I have to pull a nine on 'em  
Time to grind on 'em, sweat it out  
But if you got something deep inside  
It's time to let it out

What's goin' on with that  
But I just tell 'em I'm rappin'

Just go along with that  
And I got nothin' to lose  
But everything to gain  
See I ain't scared of the danger  
And I'm use to the pain

I heard a rapper was cryin'  
I had to get him out  
Called the paramedics  
Too late, just get him out  
In a body bag with a toe tag  
Look at you now  
You ain't got no swag  
And my Benz cool, it ain't got no roof  
'Cause I'm shining like an old G's gold tooth  
Clark kent might booth into a phone booth  
Rip up the regulations 'cause there's no rules

What's goin' on with that  
But I just tell 'em I'm rappin'  
Just go along with that  
And I got nothin' to lose  
But everything to gain  
See I ain't scared of the danger  
And I'm use to the pain

(2x's) Can't you get it up, is thicker enough  
Can you get it up and do that hot stuff

Let's make this quick, 'cause I ain't got no time to loose  
Just trying to figure out which dime to use  
Keep it together, cohesive like molecules  
'Cause as long as I'm livin' nothings impossible  
And as long as I'm breathing, I keep it logical  
Death over dishonor and you're dishonorable  
Despicable, miserable and pitiful  
You get no pass, The mass wasn't critical

What's goin' on with that  
But I just tell 'em I'm rappin'  
Just go along with that

And I got nothin' to lose  
But everything to gain  
See I ain't scared of the danger  
And I'm use to the pain

Maximally minimal, way too many intervals  
You are not like Mike, a smooth criminal  
I'm about to reach my apex, the pinnacle  
Vegetarian, I don't eat animals  
'Cause I eat rappers, call me cannibal  
Doctors want to keep me locked up like Hannibal  
But I don't wear a mask like MF  
Better check yourself and make sure you got some skin left

(2x's) Can't you get it up, is thicker enough  
Can you get it up and do that hot stuff

What's goin' on with that  
But I just tell 'em I'm rappin'  
Just go along with that  
And I got nothin' to lose  
But everything to gain  
See I ain't scared of the danger  
And I'm use to the pain

#### 9. Kangaroo

Stick around I might teach you a thing or two  
On how to get the people jumpin' like a kangaroo  
It's ok with me as long as it's ok with you  
Do the kangaroo, hop like kangaroo

Cat daddy, you can call me mac daddy  
Daddy mac, kris Kross is in the black caddie  
Strippers at the bar, they call me rap daddy  
And when I make it rain, it be like tragedy  
A tidal wave, a sunami  
And I know why you beefing

'Cause you can't I move a fugazi  
A foogazi, yeah it's true baby  
My whole crew crazy

Stick around I might teach you a thing or two  
On how to get the people jumpin' like a kangaroo  
It's ok with me as long as it's ok with you  
Do the kangaroo, hop like kangaroo

(2x's) The kangaroo, Do the kangaroo  
Like a kangaroo, jump like a kangaroo

In a black Mazze like John Gotti  
And my risk game sick, I call it armed robbery  
Obama, Osama, how I bomb armies  
Let's get back to basics, playin' Atari  
Take you on safari, through the hood streets  
Throwin' out wood, spittin' on the hood beats  
And I could teach you a thing or two  
How to get the people jumpin' like a kangaroo

I don't want to take you back  
'Cause we're gonna fall again  
I don't want to take you back  
Can we just be friends

Money cold, frozen ice  
I got the people captivated when I hold the mic  
When I pass probably think I'm on a motor bike  
The crowd dancin' like they on a motor bike  
Stick around I might teach you a thing or two  
On how to get the people jumpin' like a kangaroo  
It's ok with me as long as it's ok with you  
Do the kangaroo, hop like kangaroo

(2x's) The kangaroo, Do the kangaroo  
Like a kangaroo, jump like a kangaroo

Give 'em what they like  
Yeah you know the deal  
Here's an old dance, hands on the steering wheel

I said it once, now I say it twice  
The one that fits like you, about to roll the dice  
Now walk it out, with a two step  
Now bounce like a kangaroo, the new step  
Now jump until you catch heart failure  
Good day mate, woke up in Australia  
I'm not aboriginal, no I'm not from Sydney  
Drink a can of foster's till I new a new kidney  
Now jump around like a wild animal  
To this new dance craze called the kangaroo

I don't want to take you back  
'Cause we're gonna fall again  
I don't want to take you back  
Can we just be friends

Stick around I might teach you a thing or two  
On how to get the people jumpin' like a kangaroo  
It's ok with me as long as it's ok with you  
Do the kangaroo, hop like kangaroo

(2x's) The kangaroo, Do the kangaroo  
Like a kangaroo, jump like a kangaroo

#### 10. Put'emDown

Imma put it down, ah ah, I put it down now  
Show me what you got when it hot on hot  
I put 'em down now  
Yeah uh it's about to go down now  
Everybody knows that  
Imma put it down like this

Come and jump around like you just don't care  
Oh yeah let me see them hands up in the air  
Put another millie on the top right here  
Everybody goin' crazy, always shout like flares  
You never stop when the, when the beat drops

When the beat drops I'm goin' all moosestruck  
Lovin' about the bay, what's my name  
Guess what you never try like a hurricane  
Hey party people in the place to be  
Make a mad noise better let me hear you scream  
Goin' all out now in love with the sound  
We get down come on let it all play out now  
On and on until the break of dawn  
We can't stop, won't stop till we play the party life  
We live for now 'cause tonight's the night  
'Cause right you know we can't stop for anybody

Imma put it down, ah ah, I put it down now  
Show me what you got when it hot on hot  
I put 'em down now  
Yeah uh it's about to go down now  
Everybody knows that  
Imma put it down like this

Imma put it down like it can't be stopped  
Oh no we runnin' wild like a rodeo  
Choose another way to go flow for sure  
'Cause you know we right here  
Always down a row  
Makin' mad moves and I better never slow down  
Jump jump around like I'm up for the crown though  
Catch me if you can, so unstoppable  
Cold like a flow let it go like gold  
Never get 'em out, it's a state of mind  
Till top you'll find your way to shine  
Once again we go line for line  
In due time I'll fly like MJ in his prime  
Just relax 'cause your heart attack  
Come on people hold it down  
Just about to bump track, back to back  
We pack that in the sound

One life, guess we only live once  
We don't play around, no we don't front  
Good vibes, have a good time  
Put your hands to the sky

Come on let's ride

Call the operator, catch the flavor, see you later  
All my people jump and down, like an elevator  
Getting' high, getting' low. tall like a sky scrapper  
If they would fall, I will make it rain like paper  
Say highway fly to a player hater  
Never pull up pair fresh, live like ain't eraser  
One for the money, two for the show  
Don't loose your grip, now cancel ground flow  
Let's go getting' out of control  
We roll faster than the cops, thinkin' nose for no  
Throw it all out like nothing can stop me  
All the way up can nobody stop me  
Keep an eye on spy no lie  
Like what makes you the paparazzi  
You just want to party  
Speed it up, they bangin' a new Bugatti

All my people from the left to right  
Put your hands up wave 'em high side to side  
All my people from the front to the rear  
Hands up let me hear you say  
Oh yeah, oh yeah

If we don't play, keep the vibe alive  
In time shine like a diamond floss and grind it right  
Do it all day and night, ignite the light  
Let it shine brighter, I'm gonna bang like dynamite  
Give me the right type, Let it do the movie show  
Proof for the news, shout out to the crew, we rule  
Never back down, stands strong its on a go  
Heart of gold, all about getting along everyday  
All day it was cool all gravy, truckers all bang  
In a black Mercedes  
Motherless pimps see the ladies waving  
Turnup and earn up, it's getting crazy  
Backin' no frappin' no stackin' we backin' up stackin' the  
Man is so packin' right there we pull up and roll up like  
Hold up what's happenin', I'm up and away and I'm ready  
For action

Imma put it down now  
Show me what you got  
I put 'em down now  
Yeah it's about to go down now  
Everybody knows that  
Imma put it down

All my people from the left to right  
Put your hands up wave 'em high side to side  
All my people from the front to the rear  
Hands up let me hear you say  
Oh yeah, oh yeah

#### 11. Get'emBack

One, two, come let's go I said

The flow, you better lay down low  
'Cause you know I roll with about four or five \*\*\*\*\*  
(Stop the beat and dance with it)  
Each and everyday, each and every weekend  
'Cause you know I grow thick with my friends, its like  
(Move your body and rock with it)  
You better back close so \*\*\*\*\*  
You stink like MC's need soap

I'm mad at you (doin' my own thing)  
Guess I'll wait for ya (livin' like I'm queen)

(4x's) Get 'em back, get 'em from the front

(2x's) North, south, east, west coast

Better watch yourself homie 'cause I don't play games  
In your brain, I make you go straight insane  
(Drop the beat and dance with it)  
You better back close so \*\*\*\*\*

You stink like MC's need soap

I'm mad at you (doin' my own thing)  
Guess I'll wait for ya (livin' like I'm queen)  
The beat is pumpin', We'll fill the room  
We'll start to jumpin', It's party time  
The lights go on, our music plays all night long

(4x's) Get 'em back, get 'em from the front  
(Move your body and rock with it)  
(4x's) Get 'em back, get 'em from the front

(2x's) I'm mad at you (doin' my own thing)  
Guess I'll wait for ya (livin' like I'm queen)

(8x's) Get 'em back, get 'em from the front

## 12. Raw

(2x's) If you ain't got it, better get it

President's, Grant's, Benjie's, etcetera  
You know the green cheese known as the chedda uh  
Top competitor in this old rap arena  
Got people standin' on their toes like a ballerina  
In the battle make the crowd scream like hyena's  
Laughin' at the punch line when I'm rappin'  
Clappin' when it's crunch time, I make it happen  
In an so orderly fashion, we make it happen

Double U raw, we hard core  
Many different flows, we got styles galore  
Now it's time to put the plan in motion  
Never need to keep it open  
Stack is so deep it's hard  
That you could never fold it

(2x's) Don't matter how much you buy

Don't matter how much we try  
Don't matter how much we love  
Life goes on

You know it's takin' time for some action  
Dancers on the floor, doin' backspins  
Just stay focused on the art and the practice  
Keep 'em bouncin' like a mattress is what the fact is  
Money is a leader, money is a ruler  
Everybody want the same thing, more mula  
So we can have more cars, clothes and computers  
Being broke is the old stuff, get that new buzz

The green celery and the salary  
Nobody like to clothe shop at the dollar tree  
Bang notes by the book, all legal tender  
Almighty dollar keep my wallet never slimmer  
I like my pockets fat, 'cause I'm a crepe digga  
And they gonna keep on growin'  
Till I meet the grave digga  
I ain't a slave, but I work like a cave killer  
A hit man for hire, 'cause I dress so much higher  
'Cause if you ain't got it, then you a struggler  
So count it, count it, count your money up  
Count it, count it, count your money up  
Count your money all up, count your money up

(2x's) Don't matter how much you buy  
Don't matter how much we try  
Don't matter how much we love  
Life goes on

Ladies, I will fulfill your deepest desires  
But if you ain't makin' bread then you get a minus  
It's gonna take some fineness to roll with your highness  
I've got the golden touch, call me king midas  
'Cause my bank roll harder than a bowlin' ball  
How a brother look, shootin' up a donut, na  
I want the capitol, yeah I want it all  
Let's scoop the money up, so that we can pay all  
Double U raw, we hard core

Many different flows, we got styles galore  
Now it's time to put the plan in motion  
Never need to keep it open  
Stack is so deep it's hard  
That you could never fold it

'Cause if you ain't got it, then you a struggler  
So count it, count it, count your money up  
Count it, count it, count your money up  
Count your money all up, count your money up

## Album 14: EndOfNight

### 1. ByTheRiver

I came across a little place  
Somewhere by the river  
And every day I see your face  
My young and eager lover

Come and lay down by my side  
My warm and gentle lover  
One day you're gonna be my bride  
And there would be no other  
I came across a little place  
Somewhere by the river  
And every day I see your face  
My young and eager lover

I thought of when we fell in love  
It would come from the start  
And like the song you'll hear me out  
Is a fire to my heart

My heart is like a singin' bird  
And you are home with me  
Like every love song that I've heard  
Your love would set me free  
I thought of when we fell in love  
It would come from the start  
And like the song you'll hear me out

Is a fire to my heart

(2x's) I came across a little place

Somewhere by the river

Somewhere by the river

I came across a little place

Somewhere by the river

And every day I see your face

My young and eager lover

Open your heart

#### 4. BedWithU

You told me you're mine, with every step you take  
The words mean  
And I can't think of anybody else  
That I would want so much  
You tell me that I'm the only one for you, for you  
Just let it slip right off your mouth, say it aloud  
I wanna go to bed with you

You give the stuff the touch  
And you don't even try  
You make me laugh so much  
Gonna make me cry  
I feel ashamed of all the thoughts inside my head  
They haunt so bad  
My lips are red, it's all for you  
It's coming true, I'll come with you

I wanna go to bed with you  
Gonna feel your body close to mine  
I'm gonna touch your skin  
I wanna run my fingers through your hair  
Go to bed with you  
Wanna feel your body close to mine  
Wanna touch your skin  
Wanna run my fingers through your hair

You told me you're mine, with every step you take  
The words mean  
And I can't think of anybody else  
That I would want so much, so much  
I feel ashamed of all the thoughts inside my head  
They haunt so bad  
My lips are red, it's all for you  
It's coming true, I'll come with you

I wanna go to bed with you  
Gonna feel your body close to mine  
I'm gonna touch your skin  
I wanna run my fingers through your hair  
Go to bed with you  
Wanna feel your body close to mine  
Wanna touch your skin  
Wanna run my fingers through your hair  
I'm gonna get you

(2x's) I wanna go to bed with you

(2x's) I'm comin'

5. Coke&Spaghetti

(2x's) Weather is slightly changing  
Sun is up and I feel brilliant  
Travelling bus but stuck in the traffic

We're over the target like coke and spaghetti

Football shirts from the 90's

Fila boots, green socks and an ice cream

Birds argue like brighton

Thoughts pass my head is rewinding

Your cologne's like my past summer

Wet shirt with button down collar

We caught a glimpse from another

The blue of your eyes is my favorite color

Can't forget it

Times were different

Run with the flow, but run with the spirit

You and I alone didn't have no limits

With only a time and a pack of cigers

Weather is slightly changing

Sun is up and I feel brilliant

Travelling bus but stuck in the traffic

We're over the target like coke and spaghetti

Can't remember anything apart from her

Cheeks are blushing, weather gets rougher

Has it come to this, rain is sublime feeling

My pools in the brisk conduct

Minutes of different time

Different life that we are living

People we get to know

And people we are leaving  
Are playing fair, you play to win, guilt one-off  
Trying to get even with the one that I've become  
(2x's) Weather is slightly changing  
Sun is up and I feel brilliant  
Travelling bus but stuck in the traffic  
We're over the target like coke and spaghetti

Can't forget it  
Times were different  
Run with the flow, but run with the spirit  
You and I alone didn't have no limits  
With only a time and a pack of cigars

Weather is slightly changing  
Sun is up and I feel brilliant  
Travelling bus but stuck in the traffic  
We're over the target like coke and spaghetti

6. Waves

Waves are rolling to the shore  
Stay with me a little longer  
Waves stand still, the sun goes down  
Fall asleep in my arms

(2x's) Look into my heart and see

What my love, you are to me

Waves are rolling to the shore

Stay with me a little longer

Waves stand still, the sun goes down

Fall asleep in my arms

(2x's) Look into my heart and see

What my love, you are to me

(2x's) Waves are rolling to the shore

Stay with me a little longer

Waves stand still, the sun goes down

Fall asleep in my arms

## 7. FlowersInTheSky

(2x's) The night, still risin'

No time, No lies

The night, still risin', the night

Fly high, so high, still risin'

No time to go back in time

I know I want you, I found you, no lies

The night, still risin', the night

Fly high, so high, still risin'

No time to go back in time

Yep, I found it, no lies

Flowers in the sky

So flawless while I fly through the sky

While I'm flying through the sky

In flying in the sky

Flowers in the sky

Flew to London, to Marselles, to Florence, to Milano

I tried to feel the same

But I cannot find no one like you

It's my fortune that I got you

You belong inside my heart and so do I

(2x's) You and I, in the sky

Through the lights, shining bright

Wind of love levitates us through

A hundred thousand nights

(2x's) You and I, in the sky

Through the lights, shining bright

Wind of love levitates us through

A hundred thousand nights

London, to Marselles, to Florence, to Milano

I tried to feel the same

But I cannot find no one like you

It's my fortune that I got you

You belong inside my heart and so do I

(2x's) Flowers in the sky

So flawless while I fly through the sky

While I'm flying through the sky

In flying in the sky

Flowers in the sky

8. AllDay

Sittin' on the block let me rock this here

We was down but we came up this year

Caught a bunch of hate but we lost that fear

Kinda old school and we still rock this we're yeah

Old school uh, old school uh

Ain't nobody stop what we got to say

'Cause we paid up in a major way

Yeah we stayed up, we designed the play

All we do is win like the anthems say

Beat feels good and they cure the pain

Now I salute up every time it rains

Chillin' with my people and they smell the same

See a cutie and she's such a little vibrate thing

We keep it easy all day (just like that)

'Cause now we're rockin' our way (just like that)

Sayin' what we got to say (just write that)

Livin' out this life all day (yeah we write that)

We keep it easy all day (just like that)

'Cause now we're rockin' our way (just like that)

Sayin' what we got to say (just write that)

'Cause now we're rockin' our way

Sayin' what we got to say

Livin' out this life all day (wooh)

Same fab different day, yeah it's automatic

Seeing what we want boss seeing nothing then we grab it

Grab it, like a boss up then we grab it

Money at the end of the day, yeah we gotta to have it  
Hustle through the hard times all these years  
Duckin' 5 O's, duckin' all these fears  
Scrappin' ends together, we was bailin' our peers  
Let them paper chase us, now we switchin' up gears

Ba ba ba ba (just like that)

Ba ba ba ba (just write that)

Ba ba ba ba (yeah we write that)

Ba ba ba ba (just like that)

Ba ba ba ba

Holla if you know you feelin' me yoy  
Keepin' this game on lock is epitome yoy  
We the best and forever switchin' up this flow  
On top we forever sweepin' up this dough yoy  
We gotta steal, we together, any time of week  
You know we changin' the weather, it's better  
Money loan melt in this cheddar  
We belong here like up a go getta yeah

You're the only one for me

#### 10. SoulfulNight

In the city the lights shine bright  
Underneath a starry soulful night  
People dancing, that sound and the rhythm  
Love is found

Sweet melodies are all around  
With love music found  
And I see you dancing hand in hand  
Together people make a stand

In the streets, the stars alive  
Under the moon, your hand in mine  
Soulful voices at midnight  
We'll keep walking without a care

In the city the lights shine bright

Underneath a starry soulful night  
People dancing, that sound and the rhythm  
Love is found

11. Here4U

I was here for you  
I can't let you go  
Keep me close to you  
'Cause I need you so

I waited patiently  
To hold you in my arms  
This is what's meant to be  
Don't tear us apart  
If you want me  
Keep me in my youth  
I'll never look behind me  
That is the only truth

(2x's) I was here for you  
I can't let you go

(2x's) I was here for you  
I can't let you go  
Keep me close to you  
'Cause I need you so

## 12. Seasons

The sun is shining

I feel alive

My heart is warmin'

As the birds have arrived

The sound of the waves

Tickles my ears

I feel the cool breeze

Drifting away

The moon is shining

I feel alive

We keep on dancing

Through the night

November rain

Leaves falling down

The birds are gone

November rain

(3x's) The sun is shining

I feel alive

La da da

## Album 15: CaminoOscuro

### 1. TheEnemy

It's a long, long way to find out where to go and how to be  
There's a feeling that leads me to move on  
I only hear the enemy

In those days, last thing, it's better to be alone  
So my heart doesn't care  
Love is blind, makes me full of anger  
Because you have never been there

I don't care

I walk along the road and there's nothing I can do  
You got me the one thing, I need to find something  
To let those feelings loose

And I'm walking, sometimes running over hills  
And mountains so high  
When I'm driving it feels like flying  
To the clouds and up to the sky

On the way

It's a long, long way to find out where to go and how to be  
There's a feeling that leads me to move on  
I only hear the enemy

On the way

I walk along the road and there's nothing I can do  
You got me the one thing, I need to find something  
To let those feelings loose

The way would be a long one  
And maybe stoney too  
But when I reach the intent in time  
My dreams could all drive through

I walk along the road and there's nothing I can do  
You got me the one thing, I need to find something  
To let those feelings loose

(3x's) Hear the enemy

## 2. CaminoOscuro

Camina la por la noche  
Y entaba muy perdido  
Mi fantaba que tu ojos  
Memos plada el camino

English Translation:

(Walking through the night  
When I was very lost  
I fantasized that your eyes  
Would cover the path)

## 3. WastedGeneration

We are the wasted generation  
(Free yourself from materialistic thinking)  
We are the wasted generation

Without a machine  
I'm writing pictures in my mind  
Without a machine I'm fine  
Without a machine  
I lust for life  
Without a machine I'm fine

We are the wasted generation  
We live in sweetest harmony  
No one is socially sanctioned  
Now it's the time to set us free

(Free yourself from materialistic thinking)

Without a machine

I'm writing pictures in my mind

(What is happening to me)

Without a machine I'm fine

(Someone turn me off)

Without a machine

I lust for life

(I think I'm blowing a fuse)

Without a machine I'm fine

We are the wasted generation

We live in sweetest harmony

(I will simply fuck you up man)

No one is socially sanctioned

Now it's the time to set us free

(Free yourself from materialistic thinking)

We are the wasted generation

(I will simply fuck you up man)

We live in sweetest harmony

We are the wasted generation

We live in sweetest harmony

Hey man, that's groovy

#### 4. Addiction

(8x's) You know I can't stay

(2x's) You know I can't stay

#### 5. Die4U

As long as I love you  
My heart is so tough  
From this feeling yeah  
I can't get enough  
As long as I love you  
I need you much more  
I will stay by your side  
Wherever you go

Die for you, cry for you  
This is what I can't deny  
Die for you, cry for you  
Please don't say goodbye

Gotcha back girl, I'm gonna make it last  
I give it to you right girl, when you make it want so  
Come on girl let me take you to another world  
You're the one that I love more than other girls

As long as I love you  
You don't understand  
I don't get a kiss  
A touch of your hand

As long as I love you  
The feeling will grow  
I hope someday  
I'll have a role in your show

Die for you, cry for you  
This is what I can't deny  
Die for you, cry for you  
Please don't say goodbye

Never say goodbye, Imma die with you  
I hate it when you sigh 'cause I cry with you  
See I never say goodbye Imma I die with you  
I hate it when you sigh 'cause I cry with you

Uh huh, Believe in my heart  
Every night and day  
Uh huh, I'm strung out on you  
I can hardly wait to see you again  
yeah, yeah

(2x's) Die for you, cry for you  
This is what I can't deny  
Die for you, cry for you  
Please don't say goodbye

Ohh, yeah

## 6. Destruction

See me walking in the sun  
It has not yet begun  
When it's getting dark outside  
I'm preparing for the night

Working hard to get ahead  
But the night makes me forget  
Step to this and take my hand

(2x's) Catch my eye to understand

I get lost within the sound  
Keep me dancing 'round and 'round  
Step to this and take my hand  
(2x's) Catch my eye to understand

(4x's) Give them all destruction

(5x's) Working hard to get ahead  
But the night makes me forget

(4x's) Give them all destruction

## 7. Aftermath2

We have been fighting  
From this boredom, anxiety  
This has been frightening  
So let's get out

Can't believe this has finally come true  
Have been dreaming about it day in and day out  
All my best dreams were tied up in the sand  
Like a red dress, let's finally break out

We have been fighting  
From this boredom, anxiety  
This has been frightening  
So let's get out

This is what we have been waiting for so long  
Call it the aftermath show  
After all this time of longing  
Forget the graves we closed  
Now let it go, ooh

All my mystery is silent and then say

Like a red dress, let's finally breakout  
Walking 'round in the light to the sunset  
Let the tide take us over, take its toll

We have been fighting  
From this boredom, anxiety  
This has been frightening  
So let's get out

(2x's) This is what we have been longing for  
Let's go out dancing all night long  
Now surrender getting on now  
Let the aftermath, now let it go

#### 8. FindU

Top of mind, close to heart  
I feel you when we're far apart  
Reaching out, from the start  
(2x's) I'll always find you in the dark

(2x's) I'll always find you in the dark

I'll always find you in the dark

When the lights go down  
I'll be around  
In the dark, in the dark  
I'll always find you in the dark

Top of mind, close to heart  
I feel you when we're far apart  
Reaching out, from the start  
(2x's) I'll always find you in the dark

I'll always find you in the dark

(3x's) I will find you

(2x's) In the dark  
I'll always find you in the dark

(2x's) I'll always find you in the dark

## 9. Speed

Move on faster

Everyday I'm on my road  
But today is the day  
That I meet you my baby  
Hope you're going to stay  
Five O'clock two hours to go  
No time to lose  
'Cause I need you so

Until I am with you  
Already seeing your door  
But who the hell is that boy there  
Secretly leaving your floor  
Well every single car impedes a way to you  
I'm longing to you  
So can I break every rule, break every rule

I'm stopping at rest. Only stepping on the gas  
Sensation so cool  
Faster, I'm driving faster, I'm driving faster

(2x's) Until I am with you  
Already seeing your door  
But who the hell is that boy there  
Secretly leaving your floor

Well every single car impedes a way to you  
I'm longing to you

So can I break every rule, break every rule

Faster. I'm driving faster. I'm driving faster

Get out of my way

#### 10. Old Patterns

(2x's) Tied to old patterns  
Why do I why, why do I why

Maybe I'll write a symphony  
Of what I think and still feel  
I've been reckless with myself  
Never so much all the time  
No reasons I can describe  
I'd rather run away my dear

Why is it dark and why does it seem  
That all the shadows overcame me

I don't know what you see  
I think I see very clear  
It's not about fantasy and ideals  
But never on the bright side  
All the tears I left behind  
Fell asleep in on my couch

Why is it dark and why does it seem  
That all the shadows overcame me

(2x's) Tied to old patterns  
Why do I why, why do I why

Can't explain how I'm feeling  
Once I walked the same old fuckin' way  
All that I can think about  
Is it love, or is it lust

(2x's) Why do I fall to old patterns

Tied to old patterns

Why do I why, why do I why

Why do I why, why do I why

Tied to old patterns

Why do I why, why do I why

(6x's) Why do I why, why do I why

### 3. NotBScared

Days and the nights till you come back home  
Pretending I will not be scared  
There's a light out for you in the bitter cold  
Reminding me you're always there

I count the days and the nights until you come back home  
Pretending I will not be scared  
There's a light out for you in the bitter cold  
Reminding me you're always there

Hi and I'll be alright, You watch me in moon like a satellite  
I used to have a clue like a pirates sight  
So I can make it show if it feels right  
A twinkle in your eye and I'd would be alright  
You watch me in the moon like a satellite  
I used to have a clue like a pirates sight  
So I can be a show if it feels right

## 10. Escape2

Take me away  
I need to get out of here  
My life is a mess  
I can't take it no more

Let me escape  
From my distorted mind  
Don't hold me back and  
Unchain me right now

Please don't let me go to waste  
I need my memories erased  
'Cause I'm running out of space  
And the mirror shows no face

(3x's) I reach for a sky  
Oh why won't you take me outside  
Where I'll be free and fly

I lay in chains  
Darkness takes me alive  
My life is at stake  
I can take it no more  
Take it no more

Let me escape  
From a distorted world  
It tears me apart so  
Unchain me right now  
Unchain me right now

This life is not of my taste  
In my head by fears I'm chased  
My pain is from outer space  
I already lost my face

(3x's) I reach for a sky  
Oh why won't you take me outside  
Where I'll be free and fly

## Album 17: Progress

### 1. AllAboutYou

Lately I think I've been feeling something  
Or maybe I'm just caught up in my own head  
I saw you but now I'm stuck in a daydream  
A minute without you would make me so sad

And somehow now I'm feeling like I'm eighteen  
And I'll be watching you from the outside  
Don't wanna be alone you make me crazy  
For just an hour now and I'll be alright

Won't stop babe right in front of your eyes  
Everything I need is just a hint of a smile  
Won't stop I'm waiting until you realize  
So baby I'm all about you

(2x's) No I don't want to say goodbye  
So I keep wasting time Won't stop babe right in front of your eyes  
Everything I need is just a hint of a smile  
Won't stop I'm waiting until you realize  
So baby I'm all about you

Pretty girl smile, I like it  
Mermaid thighs I'd die for  
Perfume scents from my dream  
Curly likes skipper nike  
She better buy like oh oh oh oh  
Want to know na na na na, want to know  
Want to know na na na na

(2x's) Won't stop babe right in front of your eyes  
Everything I need is just a hint of a smile  
Won't stop I'm waiting until you realize  
So baby I'm all about you

## 2. Progress

Here we go now

First we hit 'em low, then we hit 'em high  
Under ratable we made it to the finish line  
Rhymes designed to combine and intertwine  
Spring to the summer, fall, even winter time  
I'm in it for the minute but I really got to win it  
If it ain't be done yet, we can figure and invent it  
Always pushing, keep my leverage up  
From the streets to the office then arenas to the clubs  
All in it for the love, not only for the bread  
I spent a whole lot of time with crazy ideas in my head  
Trying to push a new sled and keep the family fed  
Just check the technique, don't let it go to your head  
'Cause we be getting' down, nothing mo' nothing less  
No we ain't go no time for the stress stayin' blessed  
Every move calculated like if I was playin' chess  
Keep your ears to the streets and check the progress, yes

If you want it, I got it  
Bottles up if you got it  
Fill it up if you got it  
Tell me if you got it

Stacked from the hilt to the neck  
Get ready be set  
You are ready know what's next  
Check the progress, check the progress  
Check the progress, I'm feeding off the success  
Rhymes on deck from the hilt to the neck  
Get ready be set  
You are ready know what's next  
Check the progress, check the progress  
Ain't no time to feel stressed  
Check the progress yes

Here we go now

Checkin' they be checkin' the profiling

They want to catch a flick on me  
While I'm but I'm smiling  
Flow like water  
Coming straight out of a hydrant  
When I see my boys makin' noise  
'Cause we never silent  
We sittin' on these benches  
Making the money double  
All we stay humble never trip or take tumbles  
Holdin' on till we bubble  
Intergalactic like space shuttles  
Split the cake up till we all got something new  
What's up with you, what's up with her  
Caught you sleepin' leave the scene  
Now it's all a blur  
And it's so absurd how we keep on innovating  
Any doubts we can do it, I'm ablitterated  
Go on make a move, just like a game of chess  
We can stay on a mission with a journey and a quest  
Better come with the bangers  
Nothing mo' nothing less  
Now you can bring the test  
But check the progress

If you want it, I got it  
Bottles up if you got it  
Fill it up if you got it  
Tell me if you got it

Stacked from the hilt to the neck  
Get ready be set  
You are ready know what's next  
Check the progress, check the progress  
Check the progress, I'm feeding off the success  
Rhymes on deck from the hilt to the neck  
Get ready be set  
You are ready know what's next  
Check the progress, check the progress, yes

Stacked from the hilt to the neck  
Get ready be set

You are ready know what's next  
Check the progress, check the progress  
Check the progress, I'm feeding off the success  
Rhymes on deck from the hilt to the neck  
Get ready be set  
You are ready know what's next  
Check the progress, check the progress  
Ain't no time to be stressed  
Just check the progress, yes

### 3. SayURMine

Ohh, ohh, just say you're mine

Show me love, show me life  
Say it's everything you wanted  
I'll be there, every night  
Chase away the fears the haunt you

Ohh, ohh, just say you're mine  
(2x's) Just say you're mine

Show me love, show me life

(4x's) Just say you're mine

### 4. StayTheNight

(3x's) One more time  
(3x's) Stay the night

Call me up in the middle of the night  
Coming over to make things right  
But I can't concentrate  
On all the words you say  
Then you say what we had was fine  
And you wished you would still be mine  
No need to hesitate, then you say  
Just give it to me

(3x's) One more time  
(3x's) Stay the night

(3x's) One more time  
Oh baby  
(3x's) Stay the night

'Cause I'm lost since you let me down  
I can't sleep when you're not around  
Oh baby  
(3x's) Stay the night

Just give it to me

(3x's) One more time  
Oh baby  
(3x's) Stay the night

'Cause I'm lost since you let me down  
I can't sleep when you're not around  
Oh baby  
(6x's) Stay the night

(3x's) One more time  
(3x's) Stay the night

Waking up in the middle of the night  
And you didn't even say goodbye  
I rolled from side to side  
'Cause I got you on my mind  
Left me out in the pouring rain  
Getting harder to numb the pain

So wash it all away  
Then you say just give it to me

(3x's) One more time  
(3x's) Stay the night

(3x's) One more time  
Oh baby  
(3x's) Stay the night

'Cause I'm lost since you let me down  
I can't sleep when you're not around

Oh baby  
Stay the night

Just give it to me

(3x's) One more time  
Oh baby  
(3x's) Stay the night

'Cause I'm lost since you let me down  
I can't sleep when you're not around

Oh baby  
(3x's) Stay the night

One day we're good  
Next day you're gone

But still you leave me torn  
There's so much more to me  
Than meets the eye  
I can't convince you  
But I gotta try

(2x's) Girl, don't you know  
Don't you know that  
Love is all we got

One day we're good  
Next day you're gone  
I treat you well

There's so much more to me

## 6. PieceOfMyHeart

Black lights, dark neon  
Hold tight, never let me go  
Don't stop, this feeling  
My heart's not unbreakable

I'm tired of playing love like a losing game  
To find the missing piece of my heart again

Some days I don't know where to go  
To find the missing piece of my heart again  
'Cause nothing else can make me whole  
I'm tired of playing love like a losing game

I'm tired of playing love like a losing game  
To find the missing piece of my heart again

(2x's) I'm tired of playing love like a losing game  
To find the missing piece of my heart again

And hit the highway and do it my way  
We end up getting buzzed, so I don't play games  
So keep it up straight like up in your face  
So lift your mind up 'cause life is too short  
I got your best thorn boy put your belt on  
Stop acting all cool like Kanye West for you

Providing through the wire and the time I get on fire

Everybody are you with me  
You know what you came here for  
Everybody's gettin' freaky  
We are here to give you more

Come on baby girl let's ride to this here  
All around the world I'll be blastin' this here

9. Hypnotic

All my girls get down on the floor  
Movin' like this so here we go  
Back to back drop it down real low  
This is what we came here for

(2x's) Hypnotic fresh and funky  
This beat has totally got me  
My body's so relaxed  
I will never let you back

Drop the beat and dance with it  
Move your body and rock with it

That's how you like it  
That's why I need it  
That's how you want it

My body's so relaxed

## Album 18: NoTomorrow

### 1. NoTomorrow

You don't think about tomorrow (tomorrow)  
You don't think about your sorrow (no sorrow)  
I feel like there's no tomorrow (tomorrow)  
Do you want to be on your own (got sorrow)

(6x's) I don't want to be on my own

(2x's) You don't think about tomorrow (tomorrow)  
You don't think about your sorrow (no sorrow)  
I feel like there's no tomorrow (tomorrow)  
Do you want to be on your own (got sorrow)

### 2. Better

You and me, we're not meant to be  
And I can't wait, till I'm finally on my own  
The moment you walk out that door  
My mood is better than before  
Like I've grown  
Yeah it feels like a big relief

Honey we were never meant to be  
Maybe I was just too blind to see  
That our love's running dry  
Since you are not around

Yeah my life is so easy  
Every time you aren't near me  
I'm feeling better now

(2x's) I'm feeling better  
Better when you are gone  
So would you rather  
Rather leave me alone

I no longer want you close to me  
All I'm asking for is to be free  
'Cause we're livin' a lie (livin' a lie)  
I'm feeling better now  
So please don't stay around  
Yeah I'm feeling superior  
I hope one day you just disappear  
I'm feeling better now

I'm feeling better  
Better when you are gone  
So would you rather  
Rather leave me alone

### 3. LoveAgain

Dancin' in the dark  
A flame without a spark  
Of no man I have no defense  
Baby you're in film  
And you've got looks that kill  
You're mine and I'm in love again

(2x's) Love again

I've been talking to myself  
I've been staring at the man in the mirror  
I've been crying out for help  
But the shadows come nearer and nearer

Dancin' in the dark  
A flame without a spark  
Of no man I have no defense  
Baby you're in film  
And you've got looks that kill  
You're mine and I'm in love again

(2x's) Love again

You've been fixin' up my health  
You've been chasing out the shadows in here  
You've been answering my yells  
And you're making my future much clearer

Dancin' in the dark  
A flame without a spark  
Of no man I have no defense  
Baby you're in film  
And you've got looks that kill  
You're mine and I'm in love again

No wherever you are going  
'Cause I don't want the night to end  
And I just want the world to know it  
Yippie I'm in love again

Dancin' in the dark  
A flame without a spark  
Of no man I have no defense  
Baby you're in film  
And you've got looks that kill  
You're mine and I'm in love again

(4x's) Love again

#### 4. Fallin'Down

I can barely sleep 'cause you are always on my mind  
And I can hardly breathe, I'm so afraid to loose the time  
We were soulmates, we were lovers  
We were superstars undercover  
We shared so many things together  
Thought our love would last forever  
Don't leave me, no don't leave me  
Don't leave me

Your love  
Kept my heart on fire  
It burned with desire  
My world is fallin' down, fallin' down  
Without you  
You kept my heart on fire  
It burned with desire  
My world is fallin' down, fallin' down

No, no, no, no

Tell me where is the man who really cares what I feel  
Tell me where is the face that removes all my fears  
Can you turn back the time to relieve my sad mind  
I wish that you couldn't deny  
What you all have done in your life  
Don't leave me, no don't leave me  
Don't leave me, no don't leave me

Your love  
Kept my heart on fire  
It burned with desire  
My world is fallin' down, fallin' down  
Without you  
You kept my heart on fire  
It burned with desire  
My world is fallin' down, fallin' down

Hey yeah, yea yeah

I can barely sleep 'cause you are always on my mind  
And I can hardly breathe, I'm so afraid to lose the time  
We were soulmates, we were lovers  
We were superstars undercover

Hey yeah, yea yeah

Your love  
Kept my heart on fire  
It burned with desire

My world is fallin' down, fallin' down  
Without you  
You kept my heart on fire  
It burned with desire  
My world is fallin' down, fallin' down

5. Regret

One sunset, it hit me and it feels  
Already I regret, that I told you to leave  
I'm sorry I was blind, at night I couldn't see  
I had to clear my mind, with you I wanna be

(2x's) Wanna be

One sunset, it hit me and it feels  
Already I regret, that I told you to leave  
I'm sorry I was blind, at night I couldn't see  
I had to clear my mind, with you I wanna be

(2x's) Already I regret, already I regret  
With you I wanna be, with you I wanna be

I think I'm getting very mad very

#### 10. Vetted

Let me set you back for a minute  
Back when your boy was knee deep in it  
Back forever caught a case  
Back in safe droppin' all my 6  
Runnin' with the crates  
You know I'm getting' that chedda better  
Rack up a rack of set-up  
Track up a track up blow ups  
Stack up a stack of throw up  
Time after time I turn 'em  
Buildin' something for nothin'  
Punch then goes and shows up  
Head on a swivel  
Got steel my toes, gotta watch this hustle  
They rarely come in simple  
Gotta stay strapped 'cause they like to bustle

Vetted in these street I came up in I wish you would  
Yeah I wish you would, yeah I wish you would  
Vetted in these streets got my people they eatin' good  
Yeah they eatin' good, yeah we eatin' good

Sicker than robatussin, fussin', cussin' then bustin'  
Little round first drawn off first and you ain't show me nothin  
Built for bigger things, I'm like D'Jango without the chains  
When I jump in the saddle and take the reigns  
Everybody in the west will know my name

Name game, game change  
Better known just for alone these beats  
I be out here now running these streets  
Hustle up everything of this week  
And I, And if I got it, then my people got it stacked  
And I've worked too hard for too long  
They gotta stay too strong and I got their back  
Goin' through a faze  
Like dance boys dancing out of rave  
So high I can hardly feel the pace  
Still get paid, seven different ways  
Trippin' up, twisted up, told you better listen up  
Link up with these bosses be vetted  
Oh yeah we showin' up  
Breakin' all the rules, don't need blueprint  
You couldn't walk a mile in my shoes  
The legendary is just too big, getting' bigger  
Paid up all the dues, ain't gotta prove  
You stand still watch me make all these moves  
The lanes switch this damage  
Just to quick to fell asleep now

Vetted in these street I came up in I wish you would  
Yeah I wish you would, yeah I wish you would  
Vetted in these streets got my people they eatin' good  
Yeah they eatin' good, yeah we eatin' good

Still risin' higher, still spittin' fire  
Court is ballin' with cornerstones of my empire  
Said I said I said it, said enough you won't forget it  
Like a heart 17 in baker, so all red I wouldn't vet it  
Get it, you regret it, said it, get indebted, I jet it  
Change the weather whenever, I never fret it  
Back up in the high life, they be young and takin' seats  
Street rappin' missin' beats and  
Wonder why they stay so week

(2x's) Vetted in these street I came up in I wish you would  
Yeah I wish you would, yeah I wish you would  
Vetted in these streets got my people they eatin' good  
Yeah they eatin' good, yeah we eatin' goo

## 11. Tempted

Down yonder where, color and you want mine  
We both kinda tipsy, we don't care, it's our time  
Why you got to be so tempted  
Girl I can't control this  
Girl you got me thirsty  
Imma grab both of your wrists  
Put your hand behind  
Your back If you don't mind  
Girl it's time to whine  
You go ahead and whine  
Imma blow your mind  
Imma blow your mind  
Rolex tickin' now  
It's about that time

(2x's) (Why you gotta be so tempted)

The other way you lookin  
Throw it and you lookin  
You said you gonna trap me  
No get up, you ain't gonna trap me  
Boy too fresh my game too strong  
Look at me now, switchin' lanes and I'm gone  
Gotta be me, gotta stay free  
Try to stay up on top on the level  
Where the boss can't see me  
Untouchable like my soul made of gold  
I'm too real for these switches that your flippin'  
While I'm dippin'

Lean wit oh, rock wit oh, dip wit oh  
Get your money, get your money, then you  
Lean wit oh, rock wit oh, dip wit oh  
Get your money, get your money

Legendary in the six, how we rollin'  
Talkin' big in the six  
Money foldin' squad

Fresh up in the six  
Where we gonin'  
We show up and it's lit  
Yeah it's lit  
Fresh up in the game  
Temptation ain't the same  
Gold name on my chain  
Watch me make it rain  
Watch the money, throw it up  
Watch it fall down  
100 dollar bills  
Like grass on the ground

(2x's) (Why you gotta be so tempted)

And you're tempted, so so tempted  
With that squad, we just the realists  
We bring the vibe wherever we go  
You stay thirsty, haters no for sure  
Yeah I'm comin', got my squad runnin'  
We're from the other side  
Where them hard boys stunnin'  
Stickin' our brand new colors on the range  
Yep, temptation wants spend them things  
Yep dang twenty eight

(2x's) Lean wit oh, rock wit oh, dip wit oh  
Get your money, get your money, then you  
Lean wit oh, rock wit oh, dip wit oh  
Get your money, get your money

(2x's) (Why you gotta be so tempted)

## Album 19: California Dreamin'

### 1. ThrowMeOff(TheMountain)

In time (in time)

I will say no (in time)

In time

I will learn to say no (no, in time)

Been there done that

There's nothing new to it

I felt this rush before

And as we have reached it

The peak of everything

We're falling like rocks

When you decided to

Throw us off the mountain

Though we climbed it

So many times before

You keep me wanting to go there

Over and over, but I know how it goes

Till then (till then)

Spend some time with me until then (till then, till then)

Till then (till then)

Get high with me (get high with me, high with me)

Keep me wanting to go there over and over (and over)

Keep me wanting to go there over and over (and over)

Throw me off the mountain

Though we climbed it

So many times before

You would throw me off the mountain

Though we climbed it

So many times before

Throw me off the mountain

Though we climbed it

So many times before

You would throw me off the mountain

Though we climbed it  
So many times before

(2x's) That's how it goes

## 2. California Dreamin'

Fade to black, another dream gone  
And can't rewind it back, but my team still strong  
Paid for that, stunners in the lack  
And the lambeau steel where I'm at, deal 'em in now  
Money is thicker, chedda means good  
Doin' what we doin' when we keep rapping in the hood  
Suckas try to step on the blazin', I wish you would  
Catch me all mashin' and stashin'  
You know what's good

Me, never satisfied eight figures  
Always glorified 'cause my face getting' bigger  
I lean on them though, keepin' it real  
Cover my boys, gotta stay on my toes its like  
Long Beach in the house, its like, its like  
Yeah we turned 'em out  
They California dreamin'  
If they think they gonna step to me  
We out west and we ride like we're suppose to G

(2x's) Out on the strip and we run  
West coast style yeah we run  
If you California dreamin'  
Holla if you here me

Ridin' low, leanin' pimpin' in slo mo  
Baby blue heads turnin' in my '64  
Up and down like a roller coaster  
Hydraulics got me bounces like a n\*\*\*\* suppose to  
You would never find another squad like mine  
Shake when you face 'em and they all t 9's

Chillin' in the bergs we all wasted the scence  
Name up in lights and I'm livin' the dream

Roll with the twist and I burn every day  
Hand on the swivel ball countin' the ways  
If it feels right, it's still right  
Push for 20 with my people like day and night  
Nothin' better than blaze under Cali moonlight  
Little cutie smile, wish she token it right  
Lays big bud, doin' her thing  
This lifestyle living like a California king

(2x's) Out on the strip and we run  
West coast style yeah we run  
If you California dreamin'  
Holla if you here me  
(2x's) Out on the strip and we run  
West coast style yeah we run  
If you California dreamin'  
Holla if you here me

### 3. Consequence

Every step we take  
Every word we say  
Leaves a mark in its own way  
Every step we take  
We can throw a fade  
Consequence never far away

Every step we take  
Every word we say  
Leaves a mark in its own way  
Every step we take  
We can throw a fade  
Consequence never far away

Leaves a mark in its own way

Consequences never far away  
Leaves a mark in its own way

Every step we take  
Every word we say  
Leaves a mark in its own way  
Every step we take  
We can throw a fade  
Consequence never far away

5. DoUGot(ThatBounce)

(8x's) Do you got that bounce

Walk it like I got this fame  
Referee in your hunger games  
Now these tabloids know my name  
Watch me slide this walk of fame  
Too much for this club  
Too many haters wantin' my stuff  
Get mo' money, can't get enough  
While I poker face your bluff  
'Cause I gets money out in these streets  
One day I'll run it all like big Meech  
Take another look, can't help but wonder  
What that sound is, beats drop like thunder

You can follow me cause you know these beats  
You knows these tweets like I know these streets  
New fitted, that label crisp  
Got it different to the side with a limp twist  
I'm gonna get this money, I'm gonna blow this money

I'm gonna blow this money, I'm gonna throw this money  
I'm gonna get this money, I'm gonna show this money  
Throw this money, grow this money, get it get it

(4x's) Do you got that bounce  
(4x's) Beat is bangin' loud

Years ago I had it rough  
Now I'm in this G5 tattered up  
Years on the scene, my style is mean  
Dirty money yeah I done, now my cash is clean  
Work hard, all about that hustle baby hustle  
Droppin' bombs on superstars  
Yeah we got that muscle hustle  
Get you some, get you some, get you some  
Get you some, get you some, get you some  
This is where the boss is from

I ride the beat rodeo style  
Stream and turn it up, let's get wild  
Number one on hype machine  
Bass so mean, base so deep  
I'm getting' hotter, one thousand degrees  
Meltin' icebergs, ain't no stoppin' me  
'Cause I'm about that paper, I'm big overseas  
Touch down in your town, drop you to your knees

(4x's) Do you got that bounce  
(4x's) Beat is bangin' loud

(8x's) Do you got that bounce

(4x's) Do you got that bounce  
(4x's) Beat is bangin' loud

(16x's) Do you got that bounce

## 6. Goin' Crazy

Let the music give you power  
Let the rhythm take control  
Feel it growing every hour  
See the beauty in your soul  
Letting go of all your pain  
I know that will come tomorrow  
(2x's) Let yourself be free  
I wanna see you goin' crazy

You are for real  
So much more that they could ever be baby  
Let yourself be free  
I wanna see you goin' crazy  
Better come with me  
When your world is getting hazy

Let yourself be free  
I wanna see you goin' crazy

Let yourself be free  
I wanna see you goin' crazy  
Better come with me  
When your world is getting hazy  
Let yourself be free

## 7. RimeSkool

Built to last, undisputed  
Heavyweight, rhymes can never be muted  
Head of the class, yo and I teach it  
My style can never be defeated  
Lyrics cast a spell, back and forth  
My name rings bells from south to north  
All rhymes, every day of the week  
They all rise every time I speak

Money maker, I don't wait for the dough  
Cash chase me everywhere I go  
Rings lined up, chains they lay long  
Push rhymes like weight that's made for king kong  
Oh no look at him go  
Running the game now, send referees home  
Little bit of space in the tonic, you know I claimed it  
Writin' definitions in the book 'cause I'm famous

(3x's) Rhymes right here, I got rhymes right here yo  
And you can step off 'cause I rhyme all year

All your static built up and pent up  
Now you messed around, talked smack and limped up  
'Cause you just a clown, can't back your lip up  
Now you runnin' around scared strapped and crippled up  
Fipped up and slipped up, see you scared fool  
But don't worry I'm the bus driver  
I'll take you to school  
It's cool, you take your time  
You can learn from the best  
You graduate in time, take that weight off your chest  
Rest your head son, go on sleep tight  
While you havin' sweet dreams, I hustle all night  
Never sleep, stay at my peak  
Never give up, that's why I'm hard to beat  
I ain't goin' stop kickin' this right here  
Sitin' on top in this real big chair  
Never give up, stay at my peak

Hustle all night, that's why I'm hard to beat

(3x's) Rhymes right here, I got rhymes right here yo  
And you can step off 'cause I rhyme all year

(3x's) Rhymes right here, I got rhymes right here yo  
And you can step off 'cause I rhyme all year

(3x's) Rhymes right here, I got rhymes right here yo  
And you can step off 'cause I rhyme all year

#### 8. StartAgain2

Left for good and lost track  
My hometown got me back  
In last place, the last stop  
Empty space in Deadrock

This place is, my first choice  
In sin, travel and noise  
I feel isolated in the place I hated

Spend it all, save my soul  
Wasted time now I am old

Back to the start again  
Smile along start to play again

Narrow minds forced to stay small  
In this town where I was born

Chocolate milk and fried ice (cream)  
A lifetime to relax  
All the friends I once had  
Some moved on, some are mad  
I'm not meant to be here  
So I will disappear  
I feel isolated in the place I hated

Spend it all, save my soul  
Wasted time now I am old

Back to the start again  
Smile along start to play again

Television taught them well  
To stay inside their pity shell

Back to the start again  
Smile along start to play again

To be here  
Disappear  
In the place I hated

Smile along, start to play again

(3x's) Back to the start again

#### 9. AsLongAsULove(Me)

(2x's) There's a party tonight 'cause it feels so right  
There's a party tonight

As long as you love me  
The sky will be blue  
The sun is always shining  
Yes it's true

(2x's) There's a party tonight 'cause it feels so right  
There's a party tonight

(4x's) Let's do it

The sun is always shining

Yes it's true  
As long as you love me  
The sky will be blue  
The sun is always shining  
Yes it's true  
As long as you love me  
The sky will be blue

Fresh pair of jeans with a new white T  
Red and black case with a 23  
Crank it up like hydraulic jacks  
In and out heart attacks with my starter cap  
Now put your hands up, better keep 'em up  
Regulator pockets ain't deep enough  
I'm in first place like \*\*\*\*\*  
Them slow poke rappers ain't keepin' up  
Passin' out like flyas, were in the group like stylers  
My styles not influenced by \*\*\*\*\*  
My flow like \*\*\*\*\*  
Now what's a rent a writas  
We snatchin' up them titles  
They worship us like idols 'cause  
My vinyl, it goes viral

Now put your hands up  
Step like a zombie baby  
You'll stay playin', you too close  
Kick out like karate  
I'm in the zone and I'm prone to get a taste for it

Wait for it, wait for it, better wait for it

(3x's) Wait for it here it comes

Let the beat drop

Volatile like malitoff

Greyhound comin' at the soda box

We made it through the apocalypse

Time to shut it down, solar eclipse

No faken'in and no frontin'

No bitin' and no floggin'

I'm four star, call me general

Demotin' suckas to sergeants

MC that means move the crowd

PA speakers be boomin' loud

Them woofers blow, so air it out

Bass hit so hard, make a mushroom cloud

My flow atomic bomb, evil quite demonic

Supersonic bionic ha

I'm laughin' at these comics

They be freakin' out

Soon as these new beats come out

VU meters stay peakin' out

Sounds from the club that's leakin' out

Put it through stunts, call me Jackie Chan

Beat the drum like a one man band

They fallin' over like dominoes

I'm Technotronic, pump up the jam

(3x's) Wait for it here it comes

Let the beat drop

(3x's) Wait for it here it comes

Let the beat drop

## 12. What'sLeft

What's left, broken heart

Nothing left, but departed  
Memories of what used to be  
Now everyone talks about you and me  
Tears fall from the bitter sky  
Left in the dark  
Always wonder why  
As the dark begins to rise  
What fool  
Cries tears from lies

Let it shine down on me  
Show me the way to set me free  
And I want (you) to hear my song  
With your lies, you make me whole

What's left, broken heart  
Nothing left, but departed  
Memories of what used to be  
Now everyone talks about you and me

## Album 20: Showtime

### 1. Showtime

Here we go

(2x's) Showtime

Time for you to give me more time

Baby girl you make it so fine

So you ain't got no way to no line

Heart of stone

Livin' all alone

My heart of stone

Can you be my friend tonight

I used to wonder how I made my bread and butter

Local machine gunna in the street

Flip a mic cord, rip a henneseys

Slip up mentally, quicker as I deliver

Under the hip bra

Total carnage

Amps heat up like global warming

When I'm performing lyrically

I'm Michael Jordan in the fourth quarter

Down by two

And if you a bad chick

Then let me holla at you

I gotta catch you

I'm past due

Can we get it in

You stiffer than statue

A senior citizens

And wants to be grab you

The feelings intense

I got the Hitchcock flow

Keep you all in suspense

Another mystery, where will I go from here

Still to early to tell but you bet I'm prepared

For anything, and that's no lie

Spotlights on you, so you know it's showtime

(2x's) Showtime

Time for you to give me more time  
Baby girl you make it so fine  
So you ain't got no way to no line

Get on the floor and start to dance  
Give me more, this is a chance  
Get on the floor and feel the fire  
Take me higher

A heart of stone  
Livin' all alone  
My heart of stone  
Let me be your friend tonight

Yo, not your everyday typical thug droppin' syllables  
On the digital like \*\*\*\*\* data  
I'm original makin' paper  
Tell the haters see ya later and catch the vapors  
Like Biz Markey when I spot the marley  
Give thanks and praise like Rastafari  
Sitin' under palm trees, sippin' on dom P  
Listenin' to R&B, let me ride that donkey  
I'm on key, never off it, right on target  
The center, dolphins have doubt of the placenta  
Rob inventa, Any bud light instant I'm the winner  
I asked a girl what's for dinner  
Then I run in the abdomen  
I smacked her ribs, motor boat both hands  
Grabbin' it \*\*\*\*\*, I be up in my biz  
Check the rolex, no time, but 6 minutes  
I will add 6 minutes to showtime

What I need  
Is somebody who's  
Strong for me  
I need something that can keep away  
Something I can't keep away

Ok, ok

(2x's) Showtime

Time for you to give me more time

Baby girl you make it so fine

So you ain't got no way to no line

(2x's) Showtime

Time for you to give me more time

Baby girl you make it so fine

So you ain't got no way to no line

## 2. TouchMyBody

Talk to me

Take my hand

Hold me close

Dance with me

All night long

Touch my body

Through the night

Let's have fun

One last time

Do you want me

Do you need me, yeah

Want my body, want my body uh huh

Want to kiss it

Touch my body, touch my body uh huh

Want to taste it

Yeah

Let's get loud

All night long

Just be free

Take some time

Let's get wild

You and me

Come to me  
Step by step  
Let me help you  
Do you want me  
Do you need me  
Yeah

Boy you're forever mine  
'Cause I'm starving without you  
Hey boy why you shy  
I will treat you kind

Baby boy I really miss you  
Baby boy I really feel you  
Baby boy I really want you  
Baby boy I really need you

(2x's) Want my body, want my body uh huh

### 3. Can't Let Go

Do I choose you  
So tell me why I do  
To tango it takes two  
I've faith in you  
Let's take this to the moon

Lost in your eyes  
Wishin' for you twice  
Need more than spice  
I found what I delight  
Push me through the sky

Let lovers combine  
(6x's) Can't let go  
No, no

(6x's) Can't let go

Wishin' for you twice  
Need more than spice  
I found what I delight  
Push me through the sky  
Let lovers combine

(6x's) Can't let go  
No, no

(6x's) Can't let go  
No, no

#### 4. NoMatterWhat

Why don't you leave me alone  
Why don't you get along  
It's been a good deal for you

Why don't you move on

Hey Baby yeah

Here's a little question for you  
Tell me if you love me to  
Want to be together with me  
I've got everything you need

Come on now

(2x's) Maybe I was right, maybe I was wrong  
Maybe this night, we got it goin' on

No matter what I do, your always there  
No matter what's new to you, you're always on my mind I swear

Why don't you leave me alone  
Why don't you get along  
It's been a good deal for you  
Why don't you move on

Here's a little question for you  
Tell me if you love me to  
Want to be together with me  
I've got everything you need

Hey baby yeah

(2x's) Maybe I was right, maybe I was wrong  
Maybe this night, we got it goin' on

No matter what I do, your always there  
No matter what's new to you, you're always on my mind I swear

(4x's) Maybe I was right, maybe I was wrong  
Maybe this night, we got it goin' on

## 8. Problems2

Don't want to let my problems  
Get me down  
Tried not to let myself  
Hit the ground  
I got find a place to  
Rest my head  
Not gonna waste my life  
Feeling a lot of dread

You tried to help me  
But I tried to hurt me  
Am I just a poor soul  
With no place of my own  
Shake up these visions  
Of baggage and women  
Flyin' around me and  
Making me dizzy

I'm not ever gonna  
Give it up  
Not gonna ever let them  
Take my stuff  
I won't stand up and let you  
Break my bones  
I gotta learn to be  
(4x's) Fightin' with ghosts

Dreamt of an era of rivers and pharaohs  
Swimmin' inside me and fighting my army  
Please know I need you but  
I've got to get through  
Self interspection and  
Forging connections

(4x's) Don't want to let my problems  
Get me down

#### 9. Speed2(SoCool)

I feel the speed in my veins but I have to be fast  
It's just too slow to move  
There's sanity on the street but  
Every single car impedes a way to you

Everyday I'm on my road  
But today is the day  
That I meet you my baby  
Hope you're going to stay  
5 O'Clock, two hours to go  
No time to loose, 'cause I need you so

I feel the speed in my veins but I have to be fast  
It's just too slow to move  
There's sanity on the street but  
Every single car impedes a way to you

I'm longing to you  
So then I break every rule  
And I'm not stopping at rest, only stepping on the gas  
Sensation so cool

A short time until I am with you  
Already seeing your door  
But who the hell is that boy there  
Secretly leaving your floor

I feel the speed in my veins but I have to be fast  
It's just too slow to move  
There's sanity on the street but  
Every single car impedes a way to you

Faster, I'm driving faster, I'm driving faster

I feel the speed in my veins but I have to be fast  
It's just too slow to move  
There's sanity on the street but  
Every single car impedes a way to you

(2x's) So cool

#### 10. Summertime

(2x's) In the summertime everything is so easy  
In the summertime everything is so fine

Oh hey, da da da da

(2x's) There's a rose I knew, I never seen her there before  
She's a pretty sweet thing, the kind of woman you adore

(2x's) Da da da da

(2x's) Da da da da

(2x's) Summertime everything is so easy  
In the summertime everything is so fine

(2x's) In the summertime everything is so easy  
In the summertime everything is so fine

(2x's) Da da da da

(4x's) In the summertime, da da da da

#### 11. You

(2x's) You, you are the man I'm needing  
You, you are the only one

You, you are the man I'm needing  
You, you are the only one

(2x's) You, you are the only one

You, you are the man I'm needing  
(2x's) You, you are the only one

#### 12. MyBiggestFear

(2x's) Come on, come on, come on, come on

(2x's) My biggest fear, my biggest sorrow  
Will music still be here tomorrow

Can not escape my sound

It's always goin' round and round  
The sound you hear is quite shockin'  
It's really rockin'

(2x's) Come on, come on, come on, come on
